999 Public Notice
PUBLIC NOTICE LOCUST STREET BRIDGE SEWER LINE RELOCATION
September 11, 2020
 Per Executive Order 11988 relating to floodplain management and public noticing requirements, the City of Sisters (City) is providing public notice for pending 2021 Locust Street Bridge Sewer Line Relocation Project (Project). This Project will relocate a pressure sewer line which is currently suspended on the upstream side of the Locust Street Bridge over Whychus Creek. The sewer line will be relocated under the streambed to protect the floodplain and community. The existing sewer line was constructed in 2001. Since then, there have been two highwater events where extensive amounts of debris in Whychus Creek have damaged the pipe's protective insulation. The City believes that further debris impacts due to highwater flow pose a serious risk to the pipe and floodplain. If very large or fast-moving debris were to break or severely damage the pipe, the resulting damage and loss of function would be significant to the community with obvious environmental impacts. Please direct comments or questions to Paul Bertagna at pbertagna@ci.sisters.or.us or Troy Rayburn at trayburn@ci.sisters.or.us

CITY: Comp Plan work is officially underway in Sisters

Continued from page 1

to the County Clerk's office in Bend for counting. No stamp necessary.
 • Work on the City's Comprehensive Plan update is officially underway. Recruitment and application for the Community Advisory Committee (CAC) is now open. The CAC will represent a wide variety of community interests and will work with staff and consultants to craft policies to be considered by the Stakeholder Committee, Planning Commission, and ultimately City Council. The members of the CAC will represent the on-the-ground community interests. A maximum of three members may reside outside the city limits. If interested, please contact Kerry Prosser, city recorder, 541-323-5213 or kprosser@ci.sisters.or.us.
 • At the September 9 City Council workshop, City Manager Cory Misley reviewed the policy and guidelines for public art as directed by the Council in 2019. Staff has reviewed policies of several cities that have successful art in public places programs to develop these guidelines and has been working with legal counsel to establish

this policy.
 Installing public art around the Sisters downtown commercial zone is part of the Prosperous Focus in the Sisters Country Vision. To move the program outlined in the Vision forward, the City needs a foundational policy to build upon. The guidelines presented allow the City flexibility in either developing an art in public places program in-house or working with outside entities as staff time and funding allows.
 Council provided direction to staff to move forward with adoption of policy and guidelines.
 • Council directed staff to move forward with a code amendment to provide additional grounds for a hardship exemption for short-term rental (STR) owners who have not operated their STR for any period of 365, which normally would be deemed abandonment of the use and grounds for denial, suspension, and/or revocation of the STR license.
 The City can issue a temporary hardship exemption for a medical condition, death, or structural integrity issue. The proposed additional language covers situations such as the current pandemic and other instances such as natural disaster that may impact an STR operator from meeting the criteria to rent within 365 days.
