Save Higher EDUCATION

The University of Oregon, the Oregon Agricultural College, and the Oregon Normal School, are open to all races alike. No class lines are drawn. These schools are a part of the great free public educational system of America. It is the schools that have helped the people of America to preserve their liberty.

PROTECT THESE SCHOOLS

There are now 5400 young men and women at these three schools learning those principles of equal freedom for all that have made America great. But the schools have buildings and support for only about half that number.

THEY MUST CLOSE THEIR DOORS PERHAPS TO THOUSANDS

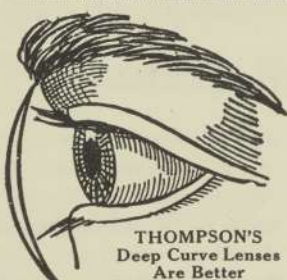

unless the voters of Oregon provide relief in the election of May 21. On that day the people will vote on number 310, which will enable the colleges of Oregon to continue their educational work.

Help the Boy's and Girls of All Nationalities

by voting number 310 X Yes at the election of May 21.

In the name of free education, you are urged to use your citizenship to this great purpose.
