**Tour**

**COBURG**

Terrain: Flat.

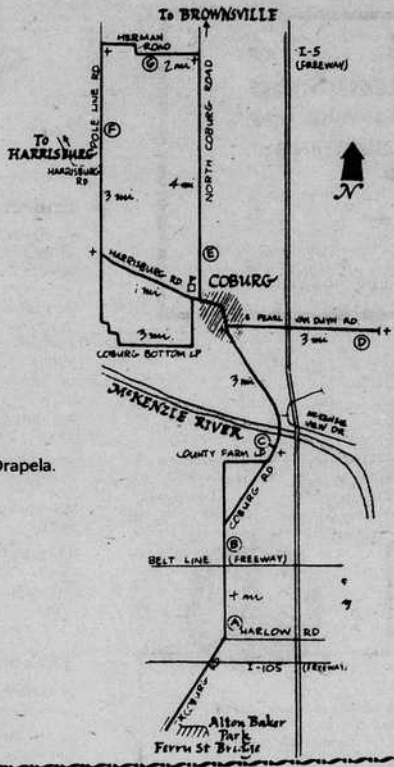

Road Conditions: Good, some uneven places south of Armitage Park. Heavy traffic from Ferry St. Bridge to Belt Line.

Total Distance: Leaving from and returning to Ferry St. Bridge: 24 miles.

Comments: This route takes you through some of the orchard, farming, and grazing land in the Willamette Valley. Most days there are good views of the Coburg Hills to the east and the Coast Range to the west.

- Interesting architecture of Westminster Presbyterian Church.
- Many horses - some with colts in the springtime.
- Armitage State Park - picnic tables, water, toilets.
- Van Duyn Rd. deadends partway into the Coburg Hills. Good view across the valley into the Coast Range.
- Historical marker at old Territorial Rd.
- Old farm house with chimney marked "1877".
- There may be water on the road here if there have been heavy rains recently.

Printed with the permission of Ernie Drapela.
