

CRESWELL - JASPER

Terrain: Low rolling hills in the eastern part, flat in the western part.

Road Conditions: Parts of Franklin Blvd., parts of the road from Creswell to Hwy 58, and parts of Enterprise Rd. are uneven. Jasper Rd. between Jasper and Springfield is narrow and has heavy traffic.

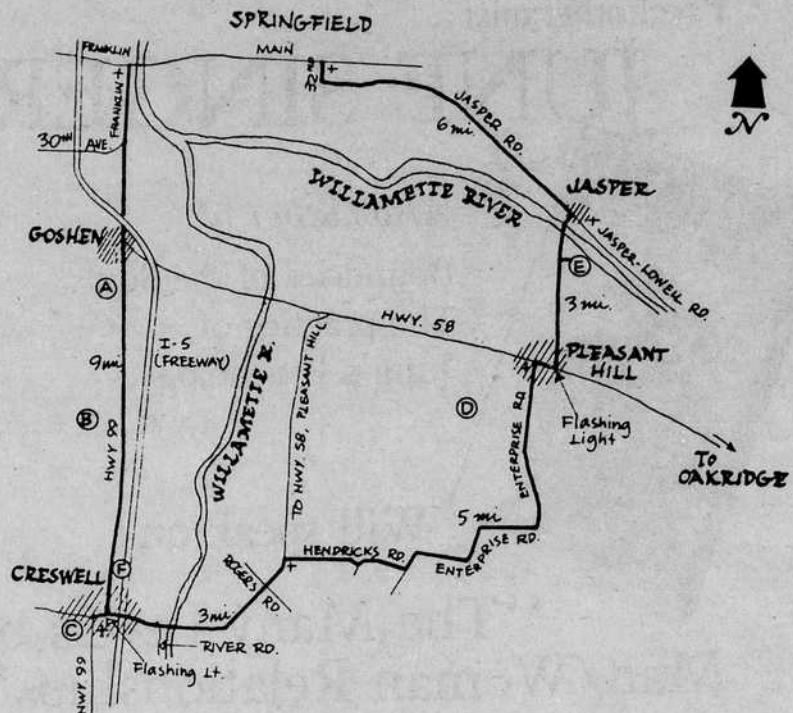

Total Distance: From Franklin Blvd. at Willamette Bridge to 32nd and Main in Springfield: 26 miles.

Comments: This is a pleasant route of varying terrain. We favor the variety of low hilly country best. It's not hard going up and one can rest going down. Jasper County Park is a spacious, grassy park across the river from twin rocky buttes.

- Just south of Goshen is a small lumber mill beside the road. Stop and watch for a moment while you rest.
- As you cruise this flat section look northwest for the fine view of Spencer's Butte.
- One block southwest from the yellow light on the other side of the rail-road tracks is a small park with picnic tables.
- Sellers Butte (Don't worry, you don't have to go over it.)
- Jasper County Park - picnic tables, water, toilets. A very nice park.
- Barn with "Lythia Hotel" painted on side.
