## The Computer Store's CLASSES MAKE IT EASY!

The Computer Store makes it easy for people to join the computer revolution. Our Apple computers are the most popular personal systems in the world, and we offer terms on approved credit. Our Warranty Plus program guarantees our customers service and support. And we've scheduled a full slate of classes between now and January 1. Pick what interests you from our list, match it with a date, and call us for reservations.

**Introduction to Computers**  
An overview of the amazing Apple: the many things it can do and plain English explanations of how it does them. Plenty of time for questions. \$10. Staff.

**Computers In Business**  
Chances are that an Apple can help you do business faster, easier and better than ever before. Learn how the owner of a retail business makes it work for him. \$10. Tom Lichty (Larson-Thomas & Co.).

**Apple Logo**  
Logo is a language that elementary school students learn easily. Yet it is so powerful that professional programmers can use it. Becoming "computer literate" is important for you and your children, and Logo makes learning fun. \$20 per family. David Wilkins.

**VisiCalc**  
VisiCalc justifies the investment in a computer all by itself. Learn how to set up your own electronic spread sheet and to play "What if?" \$10. Staff.

**Apple Writer**  
"Word Processing" lets you write letters and reports using your Apple. We'll show you how to get all your "Thank You" letters written before Christmas Day is over! \$10 per family. Staff.

**Apple III How To**  
The power of the Apple III is paradoxical: it's so powerful that it's one of the easiest business computers to use. Learn how to make it work for you. \$10. Jim Berry.

**Black Belt VisiCalc**  
People learn to make VisiCalc produce for them in a weekend, but there's more to it than most people ever discover. This class is for experienced VisiCalc users who want to explore the program's special features. \$20. David Wilkins.  
All tuition is credited toward purchases of Apple systems and selected software.

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
<b>DECEMBER</b>
