Astrologically Speaking: Aquarius

The Sun is in the sign of Aquarius from January 20th until February 19th. This is the time of year to allow ourselves to break free from outdated habits and opinions. Explore the possibilities for change this month and allow your imagination full reign. Aquarians are the forerunners of the future, determined to outdistance tradition, limitation, mediocrity and pessimism. Many of these individualistic thinkers are revolutionaries in pursuit of humanitarian ideals which they believe will lead to cooperation and peace. We are now passing out of the Age of Pisces and entering the Age of Aquarius. This is the time to prepare our minds for the reformation of world consciousness. If you want to discover the essence of Aquarius become identified with a group whose principles are ones concerned with social issues. In this way you can personally experience the Aquarian altruistic compassion and concern for the common good.
