

# WHY SHOULD I BOTHER TO VOTE ON TUESDAY, MAY 1971

Because our federal government wants to put a permanent nuclear waste dump in our backyard—

- Geologists have repeatedly said that Hanford is unsafe for long-term nuclear waste storage.
- Hanford already has a horrible safety record.
- If Hanford is selected, over 177,000 truckloads of deadly nuclear waste would travel Northwest routes to the Hanford dump. To propose that this could happen without any radiation spills is absurd.

**GET INVOLVED:** Call to volunteer at 343-8548 or send your contribution to: OREGON COMMITTEE TO STOP HANFORD • 454 Willamette St. • Eugene 97401

## POPULAR MECHANICS.

Fifth Pearl Building 207 E. 5th  
Eugene, Oregon 342-6107

## A POSITIVE APPROACH TO PROBLEMS

### A CREATIVE APPROACH TO LIFE

All over the world a vast amount of research is going on in what some scientists have described as a science of consciousness. This research is exploring the abilities and potential of the human mind.

Research has proven that a person can learn conscious control of the autonomic nervous system, producing such results as; stopping headaches, controlling blood pressure, eliminating pain, controlling an irregular heart beat. Research has demonstrated that people can learn to increase their learning ability, intuition and creativity. The autogenic research in Europe has taught many people how to mentally eliminate many health problems.

#### THE PRACTICAL APPLICATIONS

A great deal of practical application of this research has been done by the Alpha Awareness Foundation.

The Foundation has developed simple methods and techniques, successfully teaching people how to eliminate stress, tension, phobias, headaches, insomnia and many other problems. It is teaching successful methods to control emotions, attitudes, habits and energy levels. Successful techniques to develop creativity, intuition and better memory and learning ability are a part of the program.

The program developed by the Foundation is presented in such an easy and logical manner that anyone can understand and readily apply it. It has been presented to colleges, universities, high schools, churches, companies, teachers conventions, medical conventions, business conventions and to the lay public. The ease with which people can understand the program and apply the techniques with results in their daily lives has made the course a success in all areas.

**This Seminar Will Be Presented by Wally Minto.**

A dynamic speaker, Mr. Minto travels throughout the nation lecturing for private business groups, major sales organizations, large conventions and civic organizations. He appears many times on both radio and television as the author of books on personal human development, Alpha Awareness Training, and how to direct your life and achieve the results you desire. Because of his accomplishments in his field, Wally is listed in Who's Who in California.

**This FREE seminar may well be the most interesting, informative and stimulating three hours of your life! Bring your friends!**
