## OUR BUDGET OF LORE

### LOCAL AND OTHERWISE

---

---

Among those who have been on our sick list of late was Mrs. Fulker-son, who was quite ill for a week or two.

Mrs. M. S. Jones, of Salem, and Miss Nellie Banfield, of Portland, are at present filling vacancies in our school.

Every one of the cuts in this issue were drawn and carved by Willie Ready. We are proud of the work and the worker.

Since our February issue Miss Pearl Horner of Corvallis was here for a few days, the guest of her cousin, Miss Skipton. Miss Horner is attending the State University at Eugene at present.

Our hustling merchant and postmaster, Mr. Henderson, not content with rebuilding and repainting his store building, is reported to be erecting a domicile on his property half a mile south of the school.

On the afternoon of February 23 Miss Dohse, one of our academic teachers, had the misfortune to sprain her ankle very badly as she was passing out of the school building. She has not recovered fully yet.

We regretted to see Misses Hall and Macomber, two of our academic teachers, depart from our school on March 1st. They had interests which compelled them to leave us and we all hope that they may prosper.

Petroleum Barrett passed a few days in Portland in company with his father since our last issue. "Pet" is one of our printer boys and we were all delighted to see him get the outing as it was certainly well merited.

The school should feel proud of the record made in basketball by Luther Clements, one of our students. Luther has played many games this season and has scored more points than any other player in the Willamette Valley League.

Mr. Mitchell and his force of industrial workers have made a complete transformation of the grounds near the bandstand where stood our little fountain. Everything has been cleared off underneath the trees and the fountain walled up with rock and ferns.

We acknowledge the receipt of a recent Sunday evening program of services at Tulalip, Wash. It was in every way a most appropriate program and proved that Dr. Buchanan, who is superintendent of the school, is a good program-maker as well as a musician.
