

Miss White suffered a very severe spell of illness recently, but is now on duty again, we are pleased to report.

Christine Boswell came down from her home in Cordova, Alaska, in company with Mr. Barrett, and has enrolled at the school. Her sister, Miss Sallie, came up from Portland, for a visit with her. We are pleased to state that Miss Sallie is well and doing nicely in her new environment.

As usual we have enjoyed a couple of series of moving pictures at the school during the past month. A most pleasing feature was the reel which Supt. Wadsworth was so fortunate as to secure for Washington's Birthday. It was made more impressive by being given us on the anniversary of the birth of the "Father of His Country."

We have undertaken in this issue to keep abreast with the times and our readers will find an allusion to St. Patrick's day in the cut of the "Mick Who Threw the Brick," and the shamrock. Various other cuts of chickens, rabbits, eggs and lillies will remind you of Easter. We also anticipate a little with our "April Fool."

Miss Dabb, the National Secretary of the Y. W. C. A. for Indian Schools, recently spent a few days with us in the interest of our local Y. W. C. A. Miss Dabb is visiting the various Indian schools of the country and the young ladies interested in the Y. W. C. A. work of Chemawa have received inspiration from the excellent talks delivered by her.

Mr. George T. Barrett, of Katalla, Alaska, recently paid our school a visit, much to the delight of his three sons, Patsy, Petroleum, and Georgie, who are enrolled here. Mr. Barrett is largely interested and identified with the development of the resources of that part of Alaska. He is unusually well informed on Alaskan affairs and is "good company," as well.

Mr. R. D. Hall, National Secretary of the Y. M. C. A. of Indian Schools, paid Chemawa a visit recently. While here Mr. Hall gave the students several interesting talks along the line of religious work among the Indians and of the Y. M. C. A. work at other schools. We should feel highly honored in having so enthusiastic a worker interested in the work of our school.

On Monday morning, March 3rd, various school forces combined and made a vigorous assault on a field of stumps on the eastern part of our large farm. Giant powder has been used freely in lifting out the stumps and when a blast occurred the more nervous thought the Bulgars were upon us. It is desired by Supt. Wadsworth that as much new ground as possible be cleared this spring and planted to potatoes.
