

A fine new concrete silo is being constructed near the barns. It will be 34 feet high and about 15 feet in diameter.

Walter S. Boyer, a representative of the general land office of Washington, D. C., has been doing special work in this vicinity recently and made Chemawa his temporary headquarters. Mr. Boyer's main office is in Spokane, Washington. Mr. Boyer is a real tennis "fiend" and with him there is no such thing as "too much tennis." Our most daring racquet wielders had to look to their laurels when he was here.

ATHLETICS

BRIEF SUMMING UP BY MR. SMITH, *Disciplinarian*

The present outlook for a strong team is very encouraging. The new men on the team are showing up well for the early season. With careful coaching, the first eleven will soon be playing good football. The old men are back in their regular form. Of these, Downie, Walker, Eder, Scowlol, and Peratrovich are in every play; however, they are a little weak on tackling. The new men, Nix, Johnson, Billey, V. Adams, Hobucket, and J. Scott, are doing very good work.

The game with Salem High, Oct. 11, was very encouraging and showed the weaker points. The score, 22 to 6, in our favor, will tell the story. Although Chemawa's first score came on a fumble by Salem, Nix, the big tackle, took the ball out of a mass and ran forty yards for the first score of the day. In the first half both teams played loose football and held each other even. In the second half Chemawa came back full of fight and fire, Fields taking Johnson's place at right guard. The teams contested every foot of ground and both teams were determined to win. The crowd in the stands were treated to some real football.

Downie dropped a pretty field goal from the thirty-yard line. Then Walker, Eder and Scowlol went around the ends and plunged through the tackles, Walker and Eder scoring touch downs, giving the home team a clean-cut victory.

This week will bring the hardest game of the season, when we line up against Willamette. The University is not as strong as they were last year, while Chemawa seems better than last year. This game will bring out some good football, which will be well worth the price of admission.

THE REAL AMERICANS

The Chemawa American, a monthly magazine, "printed by Indian apprentices" in the Salem Indian School, Chemawa, Oregon, is creditably printed, well illustrated, and its contents, from the pens of Indians,
