The above program was given in the Auditorium, Sunday evening, February 15, 1914, in honor of the memory of Abraham Lincoln. This unique program was planned and rendered by the senior girls under the supervision of their teacher, Mr. M. L. Devol. It is seldom that an entire evening's entertainment is given by so few members of a class; usually several classes join to give it.

The sketches of Lincoln's life, the tributes to his name, the recitations and the selections from his speeches, were very appropriate and well given, while the Lincoln stories told and read was altogether a new departure from the accustomed manner of giving entertainments. Nothing new can be said of our martyr president; the best that can be done is to say the old things in a new and pleasing way. We all agree this has been done by the senior girls. Much credit is due Mr. Devol, senior teacher, for this splendid program which was gotten up entirely out of school hours under his supervision.

FROM THE GRADES

4th

The gardeners are very busy these days pruning the fruit trees. Things look pretty at the orchard. The grass is green—looks more like spring time.

I am very glad that Alaska is going to have a railroad. After it is finished in will be the greatest place in the world.
