

Collegians and was playing shoulder to shoulder with the best players on the field.

Chemawa's strong point in the game was the forward passing of Bettles, Eder, McDonald, and Watts; each pass netted from five to thirty yards. On the receiving end of the line none could have been better than Kiutus Jim and Archie Lane. Eder was easily the star performer of the day. His long runs; once in the second quarter he intercepted a forward pass and ran seventy yards for a touch-down. The line men were strong on defense and were in the game from start to finish. Some of the Albany boys were cross-eyed before the close of the game from the forward passing, double passes, criss-cross and cross bucks of the Chemawa team. The game was hard fought by both teams; clean and fast. The score by Albany came late in the third period when she recovered a fumble on the Chemawa seven-yard line and after four attempts the ball was carried over the much coveted goal line.

The basketball team is fast rounding into form and the present indications point to a strong team this year. We have the same team that we had last year. This in itself should add to the success of the team. The experienced players on the squad are Downie, McDonald, Jim, Chamberlin, R. Service, W. Service and Talbot. The new men on the second squad that are showing up well are Colby, R. Adams, V. Adams, Watts, Williams, and Tatshama. Kiutus Jim was elected captain of the team, at a recent meeting of the first squad. Kiutus will make a good leader; as he is a good student of athletics and always takes careful pains in the early training season so that the best results will be in order.

YOUNG INDIAN ON TRIAL

Hampton, Va.—Hon. Cato Sell, Commissioner of Indian Affairs, spoke at Hampton Institute on Sunday evening, November 22, on "The Young Indian's Responsibility."

Commissioner Sells declared that he had come to Hampton, with Oscar H. Lipps, Superintendent of the Carlisle Indian School, and John Francis, who is in charge of the educational division of the Bureau of Indian Affairs, to discover the secret of Hampton's success and absorb some of Hampton's enthusiasm.

After spending Sunday with the 45 Indian students at Hampton and seeing as much as he could of the school's life, Commissioner Sells affirmed that all that has been said concerning Hampton was, in his opinion, more than justified. He commented on the wide-spread pur-
