

to do so is not worthy the name. As he does so will he be done by. There is really a Golden Rule and it works all the time. No matter what you may fancy to the contrary it is for your own good that you do right—you are the principal one to benefit.

OUR BUDGET OF LORE

LOCAL AND OTHERWISE

How about the groundhog? Will he stay out?

Mrs Brewer recently made a trip to Tacoma, Wash., on business.

Miss Dohse was a week-end visitor with Portland friends a few days ago.

Our recent cold snap gave way to rainy weather and we succeeded in getting all that was coming to us.

Mr. and Mrs. Scott Lane, parents of Archie Lane, were over from their Siletz home not long ago for a brief visit at the school.

Dr. Elliott, the well-known minister of Salem, gave a splendid illustrated lecture at Chemawa not long ago on the Panama Canal. His masterly handling of the subject in its various phases was greatly appreciated by all.

Mr. Westley and his boys have made a great showing of late in the loganberry patch and in the orchard. A great deal of pruning has been done and considerable ground worked. It is well to do work of this character in season.

Mr. Mitchell and his detail were busy not long ago on our rosebushes on Rose Avenue. The bushes were thoroughly pruned down and fertilizer placed about the roots. The hope is general that we may have a magnificent crop of roses during the coming season.

Quite a bit of land clearing is in progress at Chemawa. This is a good thing. We have quite a large area of splendid land yet in brush and the sooner it is cleared the better, for then it will be possible to make it produce something which will be of value to us in some way.

Again we acknowledge the receipt of a splendid program which was rendered recently at the Tulalip school under the direction of Dr. Buchanan. As is always the case with the Doctor's musical programs, there was more than ordinary merit to this one. We are always pleased to receive these programs.
