

Section 5. Every member of a team, who shall have participated in a majority of the games played by his team, shall be awarded the proper insignia (a block "C"). The award shall be made by the Council upon the joint recommendation of the Coach and Manager. The Manager also shall be entitled to such an award. The cost of all athletic insignia shall be met with out of the funds of the Association.

Section 6. The constitution may be amended upon the written request of at least fifty active members in good standing, provided that the Council approve of such an amendment.

TONGUE RIVER

INDIANS IN CATTLE BUSINESS

OUR sales of the western range cattle at Chicago on Monday of this week included seventeen carloads of steers from the Tongue River Indian Reservation, Lame Deer, Mont.

These Indian cattle were of notably good quality. One hundred and seventy-eight head were fed hay last winter. The balance, of same age and quality, had not been winter fed, but were in good condition. Four loads brought \$8.95, seven loads \$8.90, and about four loads \$8.50. The first two bunches averaged 1,350 pounds and the latter 1,327 pounds.

The Tongue River Indian Reservation is classed as the best cattle range in the northwest. The reservation is rough, but much of it is a natural meadow, having numerous springs and small streams.

The fine grass, springs which never go dry or freeze up in winter, and the excellent natural protection from storms make this reservation excellent for stock raising.

There are 1,456 Northern Cheyenne Indians living on the reservation at this time. The nearest railroad station is 55 miles from the agency.

The needy condition of the Indians of this section of the country where the natural resources appear to be so good caused Hon Cato Sells, Commissioner of Indian affairs, to visit the reservation in the fall of 1914. Mr. Sells made a complete personal inspection of every part of the reservation. The Commissioner is not only deeply versed in law and the banking business, but is also thoroughly informed upon stock raising and farming activities.

In the narrow fertile valley and on some choice upland, hay, winter wheat, oats, alfalfa, and certain garden vegetables produce excellent re-
