

INDUSTRIAL NOTES

Stella Williams, vocational assistant matron, is doing splendid work in Winona Hall.

James Crane is a vocational student in the blacksmith shop and is a valuable acquisition to that department.

Anna Stone and Florence Landergreen have the reputation of having the neatest, best kept room in McBride Hall.

Mr. Saunders and his boys have been spending the past two weeks in painting the interior of Mr. Hammond's residence.

The Domestic Science girls prepared and served a four-course luncheon to the University of Oregon team last Saturday.

The boys on the yard detail will be very glad when all the leaves fall from the trees, as they are kept pretty busy raking them up.

Mr. Brace, our property clerk, is very proud of Ikey, his new assistant. Ikey is not very big, nor very old, but from Mr. Brace's reports, he must be very efficient.

Eva Hood is doing splendidly in Winona Hall. Miss Reed speaks highly of her aid in the clothing department as well as of her general work throughout the building.

The girls in Winona Hall have made a great improvement in the appearance of their building. Superintendent Hall, on his Wednesday inspection, was much pleased with the change.

The talks given by the engineer boys in their academic classrooms show that the boys know what they are talking about and that they are doing good work in the engineering departments.

Altering uniforms is the chief order of the day in the tailoring department. It is expected this work will be completed this week. Mr. McLean is a good manager as well as a good workman, and the boys detailed to his department receive splendid instruction.

In addition to the usual amount of repairing, the detail in the shoe shop under Mr. Swoboda is busy fixing football shoes, making shoulder pads, etc. Mr. Swoboda speaks in complimentary terms of George Lawson, who is a vocational pupil in that department.

A force of young men from the engineering department have largely assisted the expert workmen, especially employed, in the construction of the 50,000-gallon cement reservoir just completed. The building of the forms and consequent mixing of cement and filling the forms was very educational and the boys

seemed to be greatly interested.

The girls in the different dormitories at Winona Hall are working very hard to have their particular dormitory receive the prize which has been offered for the neatest and best kept dormitory. There is also a prize offered for the best kept room in that building.

DEATH OF ADOLPH SEIDNER

Adolph Seidner passed away on Wednesday evening, October 25th, 1916, very suddenly with heart failure superinduced by tubercular pneumonia. Burial services were held on Friday in the school chapel, the Episcopalian ceremony being used, Mr. Hammond officiating, after which the body was interred in the school cemetery, in the presence of the student body and employes.

The deceased was fourteen years of age, being the son of John and Carrie Seidner, of Lolita, California. Adolph was a new boy at Chemawa, having only arrived this year. During the time he was here he endeared himself to his associates and teachers. He was a brave little fellow in his short sickness. Our sympathy goes out to his parents and relatives.

OBSERVATIONS

The boilermakers have about completed repairs to the school boilers. They have had a difficult job.

On account of car shortage we are having difficulty in getting materials for the new construction work.

Mr. and Mrs. J. Warner and little daughter Jane arrived at Chemawa last week. We are all very glad indeed to have them here with us.

Miss Skipton and Mrs. Risser have been confined to their rooms on account of illness. We are glad to report that both of these estimable ladies have improved.

Mr. Westley reports that all apples in the orchard east of the railroad have been picked and stored. Quantities are yet to be gathered from the west orchard.

Marie Shaishnikoff is delighted that her various cat families will have a house. She has in mind Superintendent Hall's new garage. Marie is very fond of cats but from all appearances she is not destined to be an old maid.

The student body held an enthusiastic rally in the auditorium last Friday night. The new booklet of songs and yells were given out and Yell Leader Orloff put the students through an hour of hard practice. President Downie called on Superintendent Hall, Coach Warner and Manager Jaquins who responded with appropriate remarks. School spirit is rampant these days.
