

LOCAL LORE

The ice plant is undergoing a complete renovation.

Mr. Edward A. Jaquins has been called to Los Angeles on business. He leaves tonight on number 13.

Miss Constance Cartwright, a graduate of the University of Oregon, is substituting as teacher of the sixth grade.

The contractor has a force of men now at work digging the trenches and otherwise remodeling the school sewerage system.

Mr. Westley, our popular gardener and horticulturist, who has been off on a leave of absence, returned to his duties on Saturday.

A goodly force of boys are at work today securing Christmas trees and other greenery with which to decorate the quarters and other places.

Preparations have been made for the clearing of the two timber lots at Chemawa, thus enabling 65 more acres of tillable land to be added to the school farm.

The boys' second basketball team will travel to Rickreall, on Friday night by automobile and play the athletic club of that place. The first team will play the strong Silverton team at Silverton on the same evening.

The new 50,000 gallon fuel oil reservoir is rapidly filling up since the installation of a 12-horse power steam boiler at the siding, which is used to heat the oil in the car and thus enable it to run into the pipes more freely.

Mrs. Risser has resigned her position of teacher at Chemawa, to accept the position of chief clerk in the State Agricultural Extension Service, Columbia, Missouri. She has made many friends at Chemawa who rejoice with her in this promotion.

Boiler number three has been unable to withstand the continuous strain given it this fall and has gone out of commission. This leaves two boilers for present use. Number four will be ready for use, however, within a few days. In the meantime, the laundry will run about half of the time.

Miss Taylor and the Division A vocational class of domestic science girls gave a luncheon on Thursday last, with Supt. and Mrs. Hall, Mrs. Risser, Mrs. McCrosson, Mrs. Estabrook, Miss White, Miss Mitchell, Miss Flint, and Mr. and Mrs. Jaquins, as guests. Leona John and Rose Simmons acted as hostesses, while Lydia Bauer and Elizabeth Reinville did the waiting. The girls who took part in the preparation of the meal were Sarah Blodgett, Bertha Grimes, Julia Mills, Julia Gromoff, Catherine Wilder, Ruth McNickle, Veltha Frazier, Marina Nelson. This luncheon, well cooked and so daintily and properly served, was given as a demonstration and not only was it of practical instruction to the girls, but was also an en-

joyable affair throughout. The reception and dining rooms were very artistically decorated with festoons of fir interwoven with strings of holly berries and popcorn. The recesses were banked with ferns and mosses. A small Christmas tree adorned one corner of the dining-room. This function was a pretty opening of the holiday season and the guests were very appreciative.

THE HOLIDAYS
