

PUPILS' NEWS ITEMS

The eighth grade worked on promissory notes last week.

Sadie Knowles, a member of the eighth grade, made some pen wipers for her class.

Willie Therriault, one of our ex-students, wrote and said he has a dairy farm of his own.

The vocational blacksmiths are having lessons in drawing different tools in the shop.

William Walters has been of great aid in helping students to learn the new school song.

The school has enough ensilage to last all summer. It will be fed when the grass is scarce.

The schedule is so arranged that the study hour is on two successive nights during the week.

The vocational girls have begun to make blue percale every-day dresses for McBride Hall girls.

The domestic science vocational girls of the seventh grade are studying about the leavening agents.

The second and third year domestic science girls have been testing baking powder, cream of tartar and soda.

The whole detail of blacksmith boys repaired and assisted in putting the seats in the new assembly hall last Thursday.

Mr. McNickle of St. Ignatius, Montana, visited his daughters Ruth and Florence last week. He is much pleased with Chemawa.

The carpenters, masons, plumbers, blacksmiths and painters put in some good work in giving the finishing touches to the auditorium last week.

The boys in the tailoring department were so busy last week pressing and cleaning uniforms that there was no time for pressing civilian suits.

Lillie Palmer, of the embroidery and fancy needlework class, completed a pair of embroidered bluebird design pillow cases, and a bureau scarf to match.

Much interest is centered this week on the gathering of arguments and preparing generally for the debate to be given by the eighth grade pupils on the jury system.

Only three more months before school is out; now get in and dig and do your own thinking. Grasp all opportunities that are offered you and take advantage of them.

The students of Chemawa are still hoping that Mr. and Mrs. Jaquins will return. We need them here at Chemawa and have missed them very much since their departure.

Agnes LaRance is making good progress in the small sewing room. She says that the sewing instruction is very pleasing and she will miss her work there when the detail changes.

There has been a little change in the time for society meeting and study hour. Society meeting will now come on Thursday and study hour on Tuesday and Wednesday.

The captains of the first three companies of the boys have been changed. Russell Adams takes charge of A Company, Earl Nuckolls B company, and John Beyers C Company.

Three of the first year vocational domestic science girls made six pies for Mr. Mitchell, Industrial Teacher. He has about twenty-five boys on his detail to whom he gave a treat.

A letter was received from Dorothy Talbot, an ex-student, who states that she is doing very nicely in her high school work. She also stated that she received the highest grade in Domestic Science.

The commissioned officers of the cadet corps received orders from the War Department ordering that they must not wear the regulation army shoulder-strap any longer. A new insignia has been made which is to be substituted for them.

INDUSTRIAL NOTES

George Barrett

The prevocational nurses have been much interested of late in dietetics.

Good reports are made by Mrs. Fulkerson in regard to the efficient manner in which the hospital cooks have prepared food for the sick.

Minnie Columbia, a pupil from the Colville reservation, is drawing plans for a hand loom for weaving cloth. Minnie is a good student and does very neat work.

With the high cost of all subsistence supplies prevailing, the good management of the "mess" shows a decrease of \$76 in the general expenses thus far for March.

Martha Sprague, Mae Adams and Leona John are devoting their allotted time in the dressmaking department to the manufacture of blue serge coat suits for their own use.

Delicious marshmallows and popcorn were made in the domestic science by the eighth grade girls, which were sold to the pupils for the purpose of raising funds in that department.

Mrs. Woods cannot too highly commend the prevocational laundry girls. She says they have taken great interest and have done fine. The laundering of the white uniforms belonging to the McBride girls was no little job, but it was done well and with dispatch.

The fourth grade class of girls in the intermediate sewing department have much good work to their credit. Mrs. Culbertson speaks highly of their endeavors to perform their work accurately and with speed. They will complete the course with this detail and the fifth grade will follow them.
