On account of the war many boys of the tailoring department have enlisted in the army and navy so that now only a few remain. There is always a lot of work in that shop and it keeps the boys jumping to keep everything up to date.

HORSE SENSE

If you work for a man, in heaven's name work for him. If he pays wages that supply you your bread and butter, work for him, speak well of him, think well of him, stand by him and stand by the institution he represents. I think if I worked for a man I would work for him. I would not work for him a part of his time, but all of his time. I would give an undivided service or none. If put to a pinch an ounce of loyalty is worth a pound of cleverness. If you vilify, condemn and eternally disparage, why, resign your position and when you are outside roar to your heart's content. But, I pray you, so long as you are a part of an institution, do not condemn it. Not that you will injure the institution—not that—but when you disparage the concern of which you are a part you disparage yourself.—Elbert Hubbard.

EVERY MAN BETWEEN 21 AND 30 YEARS OF AGE MUST REGISTER

The War Census Bureau at Portland requests that the following information be published in order that the public may be educated in regard to the census to be made soon:

"Every man between the ages of 21 and 30 years, inclusive, must register on the day soon to be proclaimed by President Wilson for the war census.

"There will be no exceptions to this rule. Even if a man belongs to one of the exempt classes, he nevertheless must register if he is between 21 and 30 years of age. The Government will determine who is to be exempt after its records are complete.

"The man who tries to evade the provision will face a term in jail without the option of paying a fine. In almost every case throughout the State the census will be taken in the regular polling places used on election days."
