

**PUPILS' ITEMS**

Last week four calves were sold; the price of which was \$40.

Russell Adams is back in the classroom again after being ill a few days.

Mr. Ross' detail has been repairing the road by the prune drier with sawdust.

The Junior basketball team is having the letters "C. J. T." sewed on their jerseys.

The student body enjoys the talks Mr. Devol gives in assembly on Monday mornings.

James Crane is busy plowing the land which is to be used for planting the coming year's crops.

Mrs. Perkins, McBride Hall matron, who has been ill for a few days, is up and around again.

The dairy boys are hauling cinders from the engine room to put over the mud in the roads.

Charles Durkee left on Monday to join the army. He is stationed at Vancouver now and receiving training.

There is one vacant room in Bachelors' Hall. None but those with approved credentials need apply for it.

Spelling booklets were made in the 7th grade and many of them are prettily decorated with class colors.

The Freshmen sometimes practice their penmanship drill by the ticks of the clock, which means a very quiet class room.

Clyde Fields, vocational engineer, with the assistance of Mr. Stewart, has completed the heating system of the McBride Hall laundry.

The boys are all glad to see Mr. Blessing return as chief engineer, for they feel that the engineering classes will have an excellent instructor.

Gertrude Marshall and Edith Starr, ex-students who are holding positions at Lapwai Indian School, are reported doing fine in their respective positions.

The books in the principal's office have been removed to the book room, the unsightly shelving removed, and the walls are being treated to several coats of paint.

On Sunday evening, after chapel services, the members of Mitchell Club met in room 46 in Mitchell Hall. After a short business session light refreshments were served.

The Freshmen decided their colors and motto were too good to discard so they have adopted red and blue as colors and "Perseverance" as the motto of the class of 1921.

A letter was received from Lawrence Frazier, who is now located at Leon Spring, Texas, stating that he has been detailed to the post exchange, acting as a cashier, so he does not have to drill like some of the privates in his company. The training he received at Chemawa helped him.

Cecelia McClung gave some interesting facts concerning the kind of horses which the Government purchases for the war. Her topic in industrial geography was "Horses."

A letter from Aurelius Talbot, now in York state, was read to the fifth grade class last week. The class enjoyed the letter. Why not answer it and each pupil write a little?

Mr. Ross and his lawn boys are preparing the ground to set out 300 rose bushes along the road in front of the buildings. This will improve the appearance of the lawn not a little.

The painters are painting, varnishing and repairing Room No. 2 in the school building. This will be known as the "Senior Room" hereafter. The principal will have charge and teach part of the time.

Mr. Hobucket, our fifth grade teacher, went to Portland Saturday to be examined for the quartermaster department of the army. He failed to pass the physical examination, so you will find him in Room No. 6 as usual.

**REPORTER'S NOTES**

By Robert Downie

George Berry is now in charge of the blacksmithing department.

Lyda Bauer has made two dozen table napkins for use in the domestic science.

Word comes from Fred Jackson stating that he is aboard a merchant ship bound for France.

Roy Nuckols and Henry Elk are making a fine showing at basketball practice. This is the first year for both of them.

The domestic science classes prepare dinner twice a week. They take much interest in planning and preparing these meals.

The football boys showed every bit as much "pep" at the Football Banquet on Thursday last as they did on the football field.

Last week the hospital cooks made a study of cereals, fats and oils. Mrs. Daly reports that they take much interest in their classes.

Emil Freeman is in charge of one section of the dairy department while Mr. Mitchell is away. He is a hard worker and takes much interest in his work.

George Barrett has returned to his class room work again, entering the Junior Class. He has been making a special study of music, but will now take up his academic work.

The harness makers are busy at all times making harness to be shipped to other schools and agencies in the United States. Ten sets were shipped out last week to Arizona.
