

PUPILS' ITEMS

Sixth Grade

Mamie Frisk is giving the prevocational hospital girls lessons in cooking.

Joseph Kipp and Albert Spencer returned to their homes in Idaho on account of ill health.

Boilers number two, three and four, at the power plant, are now cut out, as they haven't sufficient work for them.

Sophie Reinertsen left Chemawa last Tuesday for her home in Washington on account of ill health. We shall miss her very much.

The sixth grade is studying about the Alaskan territory this week, and it is very interesting, especially to the ones who are from different parts of Alaska.

Mr. Mitchell, who is in charge of the dairy, is teaching the boys how to test milk. The highest cream producing cow is No. 20, which tests 45 per cent butterfat.

Seventh Grade

Everyone is eagerly expecting the movies.

The gardeners are now busy pruning the orchard trees.

The Seventh Grade will soon begin Commercial Discount.

William Frazier is helping to plow the new piece of land on the Pacific Highway.

The seventh graders are getting down to regular work after the excitement of the geography final.

The two new stoker feed boilers and one of the old boilers are doing all the heating service for the school.

The McBride Hall girls are doing excellent work now. Every one does her part, and if necessary, little more.

The 7th graders are taking up agricultural botany and are planning on doing a lot of thinking, and that means hard work.

The plumbers' shop has been recently overhauled and is being kept nice and clean. The old pump pit tower is also being kept clean.

A letter from Henry Lange, now in North Carolina, states that he expects to leave soon for France. He is working in Uncle Sam's repair shop.

The seventh grade study hour class went out and looked at the two moons of Jupiter through the field glasses. They surely enjoyed it.

Healy Jones, who is now with Troop C, 7th Cavalry, stationed at Ft. Bliss, Texas, wishes to be remembered to his classmates of the class of '21 and to his other friends at Chemawa.

Eighth Grade

Marina Nelson led the eighth grade in the final history test with an average of 98 percent.

The Mandolin and Guitar Club is practicing every evening now. They will be heard from soon.

A card has been received stating that Louis Towner, an ex-student, has arrived safely "Somewhere in France."

A very interesting talk was given by Mrs. Risser to the B Division on her trip to the Hawaiian Islands and Japan.

The eighth graders had a test in "Meats" last Thursday. The eighth grade class is now studying soils and soil fertility.

Our classmate, Fred Charley, is fighting under the Canadian flag. He says that though he is fighting under the flag of Canada, he is still loyal to the red, white and blue.

The members of the Nonpareil Society met in school-room No. 5 Tuesday evening at 8 o'clock for the purpose of making up original yells and songs for the society. Many lively yells were handed in.

Ninth Grade

Viola Spencer, an ex-student, is attending public school at Kooskia, Idaho.

Sadie Knowles is now in charge of the small girls' sewing room and is doing good work.

The vocational sewing-room girls are busy making white uniform dresses for Company C.

The Guitar and Mandolin Club is working hard on different selections for the Washington's Birthday program.

The Juniors realize more fully the worth of their motto, "There is no Excellence Without Great Labor," because their final examination in Physics showed the results of labor.

Visions of snow fights, sleigh riding and skating flitted before the eyes of all Chemawa on Friday morning as a few flakes of snow floated through the air accompanied by a fall of rain.

During the final examination for Physics in the Junior class, Julia Gromoff received an average of 100. This is something that happens very seldom and the Juniors are very proud of Julia.

A recent letter from Robert N. Service states that he is now a bugler in the army and is getting along nicely. He sends his regards to all at Chemawa and especially to the Excelsior Society.

Recently the carpenters constructed a small structure at the hog lot which will be used as a tool and grain house. Mr. Galbraith who is now taking complete charge of the hogs is making a number of improvements.

A partition was constructed last week at the power plant which cuts off the fire room from the coal shed. This was done for the reason that the cold weather had an effect on the boiler which made it somewhat difficult to keep up steam.
