

LOCAL

Miss Skipton entertained at dinner on Sunday Supt. and Mrs. Hall, Mr. and Mrs. Jaquins, Mr. and Mrs. Baker and Mr. Southwick.

Carpenters began on Monday the task of putting an additional door in the garage of Supt. Hall in order that two cars may be housed.

Nick Hatch, Nick Orloff and Jacob Mynuk were here last Sunday visiting friends. These young men are now living in Portland and are getting along nicely.

The student body wish to thank Mr. Bell of Salem for assisting the orchestra during the social last Saturday evening. His musicianly assistance was much appreciated.

Four teams have been engaged for a day or two hauling cinders and spreading them on the road running by the prune dryer. A good road is a necessity and is appreciated by all.

Mr. Henry Turner, our tractor man, is busy at the task of getting all his implements and paraphernalia ready for spring plowing and seeding. All he wishes now is a little sunshine—so say we all.

The members of the Y. M. C. A. held a brief song service in Mitchell Hall last Sunday evening. It was one of the best meetings of the year, according to reports, even though the attendance was not so large as it should have been.

The football banquet given last week was overlooked by our correspondent. Suffice it to say that it was a splendid affair and the young men and their guests did full justice to the wonderful dinner served by the domestic science department.

Gordon Hobucket never fails to remember his Chemawa friends. We should judge that fully seventy-five students received Valentines from him. Mr. Hobucket is now employed at the Taholah, Wash., school in the capacity of clerk.

The machine shop is nearly ready for business. It certainly does one good to note the appearance of great promise which it makes. When completed it will be a credit to our school—a source of pride to all of us. It will soon be ready for the "once over" of all interested parties.

Mr. and Mrs. Edward A. Jaquins, of Los Angeles, arrived Saturday evening on the belated Shasta Limited to spend a few days with Mrs. Jaquins' parents, Supt. and Mrs. Hall. Mr. Jaquins has some business interests at Portland which will detain him in this section for some time.

On the 13th of this month snow fell at Chemawa for about three hours, to a depth of nearly an inch. The students regretted that it did not continue for 48 hours, as they had visions of snowball battles and memories of the "slide for life" of last year. It is really unusual to have snow in the Willamette Valley as late as this. In a few instances in the past there has been heavy snow fall here in February.

A little more than a year ago Joe Bettles was placed in charge of our dairy herd and in that time has brought it up to be the healthiest, strongest and best looking lot of holstein cattle in this section of the country. Our herd is inspected regularly by government officials of animal husbandry and each time they have commented on the improvement in the health conditions of the cattle and barns since Joe took charge. Just a day or so ago, upon the last visit of the inspectors, they accredited the herd with being 100 percent perfect. Along with these duties, Joe is in charge of our hoggerly and the conditions there are equally as good.

The seniors gave their annual Valentine party on Monday evening. A canopy of red and blue streamers, the class colors, covered the entire gym, presenting a most striking and pleasing effect. The party included about fifty participants. A number of entertaining features were given during a mock school session. Favors were dispensed throughout the evening, and an enjoyable time generally was had by the young people. Refreshments were served in the domestic science by the sophomore girls under direction of Mrs. Brickell, and were bountiful and delicious. Mrs. Risser and the seniors were the recipients of many compliments for the successful manner in which the party was conducted.

DOMESTIC ART NOTES

The girls are very proud of their white dresses that are being made.

The domestic art department would be very grateful for exhibit cases.

The new girls who have been added to the vocational classes are doing good work.

The white uniform skirts have been completed for companies A and B in Winona Hall.

The seniors and juniors have received many compliments on their construction dresses.

The prevocational class is kept busy making dresses for the little girls of companies D and E.

If a skirt is two yards wide, how much material would you purchase for a ruffle twelve inches deep?

The vocational classes have renovated and made over their blue uniform skirts and are very proud of them.

Our girls are making many pretty pieces of work that can not be properly displayed on account of lack of space.

The fourth and fifth grade girls are making some very attractive aprons and dresses for their construction work.

Domestic art classes have completed the embroidered pillow cases, dresser runners and sheet shams for the guest room.

The small girls receive instruction in sewing on Monday of each week under the direction of Mrs. James. They will have a surprise for you on May 12th.
