GIRLS' BASKETBALL TEAM WINS

Our ever victorious girls' basketball team stuck another feather in its hat last Friday night by defeating the fast Scio high school team 26 to 19. The game was close and exciting. Both teams fought hard and checked closely in the first period, as the score, 6 to 2 in our favor, will indicate.

In the second period our forwards, Marion Wasson and Rose Downie, played truer to form and made 14 points while the visitors registered 4.

During the third and final period the Scio girls lived up to the reputation that preceded them and tallied regularly. At the close of the period they had made 13 points while our team made 6.

It was the liveliest girls' game we have witnessed here in a long time. The Scio team came here with a long string of victories and a splendid reputation so that makes the feather all the larger.

CHEMAWA VS. NORTH PACIFIC DENTAL COLLEGE

Our varsity met the North Pacific Dental College last Friday evening on the home floor, and was defeated 27 to 24. The contest was a whizzer from start to finish. Chemawa started tallying after about five minutes of speedy passing with several long, pretty baskets. Nix and Liljegren, guards, kept the tooth-pullers from registering regularly in the first period and the half ended 16 to 9 in our favor.

The second half opened up with the same old zip and speed that kept the spectators on their toes during the first period, but our five were not able, it seemed, to begin where they left off; moreover, our guards became worried at the inability of our forwards to connect with the baskets and allowed themselves to be drawn out of position, which enabled the tooth-pullers to connect with several easy baskets and forge ahead just at the close of the game. At that it was one of the best games witnessed here in a long time.

NOTES

Almost every game imaginable is played in its season by our students at Chemawa. Some games last a month or more, some not so long; but at a certain

time every year each particular game comes and goes in its turn. At present the spinning of tops is the pastime for our boys, both large and small. Like everything else a few are more proficient than others and can "plug" a top or hit a marble or small coin and knock it out of a ten-foot ring nearly every shot.

During the long rainy and muddy season all of our games and sports have been confined to our quarters and the gymnasium, but during the past few days everybody has been basking in the fresh air and sunshine. A large number of the boys have been encouraged to work out on the race track and the warm sun has even coaxed as many more to dig up their baseballs and gloves.

HOSPITAL DEMONSTRATION

A most unique and instructive demonstration was given by both prevocational and vocational nurses to a large number of Chemawa people in the school hospital on Thursday evening last. This pleasing exhibition of the training given by the nurses under Miss Laurence, head nurse, consisted of an entire course of treatment for a patient suffering with a fractured skull and a broken arm as the result of an automobile accident. Numerous complications set in after the operation, which were thoroughly cared for and set forth in the methods taught. The preparation of the bed for receiving the patient, an ether bed and changing of bed without disturbing patient, the application of the hot pack as well as bandaging and treatment, method of giving sustenance and an array of other hospital methods, all of which were very dexterously carried out. Miss Catherine Reed, assistant nurse, was the announcer and explained the demonstration as it was being carried out.

Ice cream, cake and coffee were served by Mrs. Shaffer, dietician, and her student helpers.

OUR CHAPEL SERVICE

On Sunday evening we enjoyed our interesting chapel service as usual. The orchestra played "La Cinquantaine" by Gabriel-Marie, Maude Craig sang "Smilin' Through" by Penn, the choir sang "The Sinner and the Song," Chas. Williams, who was visiting here, singing the solo parts. Mr. Grover Sanderson, who had just closed a vaudeville engagement in the Bligh Theatre in Salem, was present and sang a number of selections, accompanied by the orchestra, and his vocalism and pleasing demeanor gave much pleasure. Mr. Sanderson is an Indian and is truly, as Supt. Hall stated in publicly congratulating him, a credit to his race. We were all pleased to have him with us. Supt. Hall gave a strong talk to the students in which he made plain the vast difference in the ambitious and industrious student and the idle, lazy, unambitious one who just drifts. The talk should bring good results.
