

**LOCAL**

Two hundred dozen eggs have been set aside by Mr. Turner for the use of the pupils next Sunday—Easter day.

The second hatching of little chicks takes place this week. The new brooder house will be completed and ready for the new hatch.

A new force of matrons in Winona Hall, consisting of Miss Southworth, Mrs. Smith and Mrs. Richter, will be in effect next week.

Mr. Paul Greene, stenographer, left for Hemet, California, Monday morning, being called to the bedside of his mother who is very seriously ill.

Mrs. Knowles, who has been acting as matron in Winona temporarily, leaves us on Saturday. She gained the good will of all with whom she came in contact and they regret to see her leave.

Each evening after supper it is fine to see the girls using the lawns. A baseball ground is being arranged on the lawn across the railroad track for use of the girls and a basketball court will also be constructed.

Last Sunday Miss Olive C. Skipton entertained Superintendent and Mrs. Hall, Mrs. Waddell, Mrs. Brickell and Mr. Rose at a wonderful dinner. Miss Skipton cannot be excelled as hostess in a function of this nature.

Addie Merrill very graciously received six guests whom she entertained last Tuesday evening at a seven-course demonstration dinner at the domestic science. Addie is a senior and is finishing her home economic course very creditably to herself and teacher.

The Junior Domestic Science class, under Mrs. Brickell's direction, served an elaborate tea Friday afternoon as part of their demonstration work for the year, the occasion being in honor of Mrs. Waddell, of Yakima. About fifteen of the campus ladies were guests of the afternoon.

A most pleasant and enjoyable party was given on St. Patrick eve by the young ladies of the Winona Society. About 150 participants voted it a splendid occasion. Contests of various kinds, good music throughout the evening, and a number of special stunts, were in evidence, and a good time generally had. The refreshments consisted of ice cream, cake and coffee, and were daintily served by the girls of the domestic science department. The Winonas always do things nicely.

During chapel exercises last Sunday evening Supt. Hall gave a splendid talk on neatness and personal appearance, stressing the great importance of both, and pointing out their bearing on one's success. It was a good talk and timely. It being Palm Sunday the orchestra played "The Palms" by Faure, Herschel

Crim sang "Then You'll Remember Me" by Balfe, Oka Paulina recited "The Flag Goes By," the Octet Girls sang "Carry Me Back to Ole Virginny" as arranged by Rider, the choir sang an anthem—"Praise to Christ"—by Thomas.

**Y. M. AND Y. W. C. A. NOTES**

The little girls of the Junior Y. W. C. A. spent a very delightful evening playing their favorite games on Tuesday last. There are about 30 little girls in the group.

On next Sunday afternoon at 2:30 the Rev. Ward Willis Long of the First Presbyterian Church in Salem will conduct the annual Easter Communion service for the Chemawa Protestant Church. Mr. Long's session will assist in the service. A cordial invitation is extended to all who wish to attend.

The Chemawa Climbers' Club are very grateful to Mr. Downie for the gift of some baseball equipment, consisting of bats, balls, a protector and a mask. Mr. Downie also assisted the Club in the purchase of catcher's and first baseman's gloves. With this fine lot of equipment and the keen interest of the members, the baseball outlook for the Climbers is good.

The Oregon-Idaho Interstate Y. M. C. A. Convention was held in Portland recently, and Chemawa sent the two delegates to which we were entitled. Wallace Morgan represented the senior Y. M. C. A., and John Long the Climbers' Club. Attendance at this convention was a rare treat, owing to the fact that the chief speaker on the program was Dr. John R. Mott, world's president of the Y. M. C. A., and his addresses were worth going many miles to hear. This is his first trip to Portland in 27 years. The Chemawa delegates made splendid reports of the convention at a joint meeting of the Y. M. C. A. and the Climbers on Sunday evening.

On Wednesday evening of last week the Y. M. C. A. and Climbers' Club had as their guest President J. S. Landers of Monmouth Normal School. Mr. Edwin Socolofsky, County "Y" secretary, accompanied Pres. Landers to Chemawa. They were guests of Miss Eakin for supper and later Pres. Landers addressed a large group of boys in the "Y" room. His talk was developed around the thought of "Youth as the Seed Time of Life." He drew his analogy from the farm and garden, and mentioned many kinds of seeds that must be planted now if the boys would reap a harvest of strong, manly characters. His talk was unusually interesting and helpful. President Landers was much interested in the school, and expressed his appreciation of the splendid educational and industrial work which Chemawa is doing.
