

FROM THE DORMITORIES**MITCHELL HALL**

During the afternoon of Armistice most all of us Mitchell hall boys went to the woods to work on our log cabin. Even though our "bull cook," Hugh Edmo, was absent, his shoes were filled by an outsider, Franklin Juneau of Brewer, who did a very good job in filling us with delicious stew. We are glad that Mr. Lavatta and Mr. Bent inspected our building last Sunday. If all goes well Mrs. Wilcox and Julian Larnard will give a party for the officeres at Mitchell during Thanksgiving week.

BREWER HALL

Peter Emmons, one of our officers, left for his home in Wagner, South Dakota. Everybody is sorry to lose Pete. Ike Vanderberg was transferred from McNary back to Brewer again. Brewer hall's football team showed McNary how to play football and defeated the big boys 27-0 last Sunday.

WINONA HALL

Another new girl for Winona is Dona May Lafonso, who is a post graduate from California. We now have 20 girls. At the meeting held by the Winona hall officers refreshments were served. Hereafter meetings will be held every Sunday night.

MCBRIDE HALL

Miss Clark attended the Hood River-Chemawa football game and is glad the Indians finally won.

Of the ten boys listed to visit McBride hall Sunday only one brave boy appeared from Brewer hall. We are still looking for the other nine.

SHOPS

The depression hasn't affected the painters this year. Some of their recent jobs completed are: Mr. Smith's house, the interior of the bakery, and Mr. Boyes' kitchen. Besides painting they also repair windows, make pottery and paint scenery. Milton Whitman is learning to make pottery and George Pepion is learning to paint scenery.

We have several new boys in the engineering department. They are rapidly learning the operation of the steam plant. Every morning each division gets a class to study circuits and electrical distribution. We are looking forward to installing electricity in several of the buildings on the campus.

DOMESTIC SCIENCE

Miss Strauch has resumed her work again. We are all glad to have her back. During Miss Strauch's absence the senior cooking class proved to be the best behaved, therefore they are privileged to have a dinner Friday night.

The tenth grade girls who take up foods at the Wigwam have just finished the study of various cuts of meat. We have planned a trip to the Valley Packing Company in Salem. We are now studying decorating and garnishing different foods. We thank our foods instructor, Mrs. Melovidoff, for giving us the privilege of experimenting with the foods we have studied.

On Monday the fourteenth, Hattie Haydon, Nancy Reynolds, Mildred Smith and Lillian Billy moved to the practice house. November 22, we are inviting our friends to dinner at the practice house. Turkey is to be our main dish.
