Miss Cleora C. Helbing, associate supervisor of home economics, is paying us an official visit.

"Fuzzy" Foss, of the U. S. C. basketball team, was Sunday dinner guest of Mr. and Mrs. Leslie S. Lavelle.

Friends of Mr. Ruthyn Turney will be delighted to learn that he is back at Chemawa again and is recovering nicely from his operation.

Chemawa is thankful to Mr. Allan Robinson of Washington, Conn., who has been sending the National Geographic Magazine to our library for the last two years.

A group of girls sponsored by Miss Judd gave a musical entertainment at the Salem Y. M. C. A. on March 3. The following Monday the same group gave another program at the meeting of the American Legion in Salem.

In order that Chemawa may have a more efficient means of receiving fuel consignments, the Southern Pacific is building a spur connecting with the power plant. A considerable amount of the construction has already been completed such as preparing the road-bed. They will be ready for the steel shortly.

James Greely, a student of a few years ago, was on the grounds last week and found things greatly changed. James was the unofficial photographer of the school while a student here and a glance through his immense album of photos and snap-shots never fails to bring nostalgia for "the good old days."

Among those who attended the Pacific coast championship basketball games between Southern California and Oregon State at Corvallis were Mr. and Mrs. Mason, Mr. and Mrs. Lavelle, Mr. Joseph Matte, Miss Hoffman, Miss Audrey Lavelle, Frank Dogeagle and Leonard Vivette. Leonard and "Ambrose" were the guests of Mr. and Mrs. Mason.

A letter to this office from Edgar "Bab" Simmons, assistant advisor at Sherman, informs us that he went as per suggestion in the last AMERICAN and found out about this upstart Chemawa of Riverside. We learn that it is next-door neighbor to Sherman Institute, that it is a junior high school and that its great claim to distinction is its name and the fact that it has two Indian students. Mr. Simmons wishes to be remembered to Chemawa friends.

Chemawa's flagpole which was destroyed by a storm about two months ago has been replaced by a new one that is all metal. It will take quite a terrific storm now to topple over the new silvery coated staff.

Collins A. Anderson, member of the printing force, sports writer on the staff of the AMERICAN, drummer in the orchestra and band and a member of numerous musical organizations at Chemawa, had suddenly to submit to a appendicitis operation Monday evening. He is at the Deaconess hospital in Salem, is getting along well and we expect to have him back at school again soon.

Mr. Grant Teter who had been for 10 years dairyman at Chemawa transferred to Warm Springs, Oregon, last week. He traded places with Mr. James T. Shawver who is at Chemawa now and has taken charge of our dairy. Mr. Shawver's dairy at Warm Springs ranked number one of all the dairys in the Indian service last year. He motored to Chemawa with Mrs. Shawver and their children, two young daughters and a son, last week-end and are now living in the cottage vacated by the Teters.

RESTAURANT AND CAFE COOKING TO BE TAUGHT

In the near future a cafe will be opened that will be used to train students in restaurant and hotel cooking. The students will be selected by advancement through the main kitchen. At least two students will be graduated every year. The cafe will be equipped with all modern devices and conveniences such as are used in present day restaurants. In order to select a name for the cafe a prize will be offered for the best suggestion. Anyone is eligible for the contest. Hand in the proposed name of the cafe and your own name to your home room teacher. A committee will select the best name and the prize will be presented to the winner. It is hoped that all interested student will make a good showing in the cafe work and will be placed outside for work after completing this course.
