At chapel last Sunday evening the orchestra played a selection, the choir sang and Superintendent Ryan addressed the student body on various matters concerning their welfare. Friday night the McNary Hall glee club set out to serenade James Rosario, a club member who is convalescing in the hospital. They dropped in at Winona Hall to sing a few selections but were so well received that it became necessary to not only sing but to produce dance music while the Winona Hall girls danced. Such good times are a benefit to all who participate and we hope for a repetition.

Various unofficial music groups have sprung up—and, to make long story short, at most any hour of the day "there's music in the air."

CHEMAWA BOYS DO CONSERVATION WORK

During the summer months many Chemawa students joined Indian Conservation camps in different parts of the northwest. They have returned to school after a summer of hard work and invigorating outdoor life in the justly famous forests of Oregon, Washington and Montana filled, we hope, with new ambition and determination. Stories to reach us concerning the camps indicate that they have done much good, not only in the improvements they have effected in the localities in which they operated but to the individuals who participated and their dependents. The cooperation of the Indians themselves in putting over the plans of Commissioner Collier and Dr. Nash left nothing to be desired.
