

◆ SHOP TALK ◆

KITCHEN: Duane Duffy is putting his skill as a cook to a test and is cooking and planning the meals for the boxer's training table.

PLUMBING: The plumbers have been occupied in salvaging all the pipe fittings and lead from the old D.S. building and are putting in three toilets and a sink in the Industrial Building. They hooked up an oil stove in the new green house the other day.

BAKERY SHOP: The bakers are all busy figuring out designs and flavors for cookies, cakes, doughnuts, etc., as they will have all kinds of pastry to sell at the coming scrip sale.

TAILOR SHOP: The tailors have been busy the past week repairing the baseball suits and getting them in shape for the coming baseball season.

ELECTRIC SHOP: The electricians have rewired the lights in front of the Dining hall. Their next job is to install an indirect lighting system in the school library.

PAINT SHOP: The paint shop boys have just completed painting the interior of the bakery shop and have added to its appearance with a light

...kpo and Terry Cochran are complimented on the fine job they did in varnishing "Jelly's" new steps in the auditorium.

MACHINE SHOP: Mr. Allen, Buddy Archambeau, Bill Sigo and the grade school boys have been making swings, teeter-totters, etc., and have an ocean wave merry-go-round in the making in their shop.

It gives the smaller children a playground and they deserve to be complimented on their fine work.

PROJECT: The Project boys have been the busiest bunch in the school the last few weeks. They have been making tools to handle their crops for this summer. They have put up about 700 posts for string beans and cleared off about 15 acres of land to be planted in beans.

CARPENTER SHOP: Under foreman, "Jelly" Jackson, all the carpenters have been very busy the past week work-

ing on a 6-room cottage they are erecting on the site of the old greenhouse.

Louis Levay is making an elaborate pair of book ends to be put on auction at the coming scrip sale.

AUTO SHOP: Preston Bell and Irving Dowd have been busy over-hauling Mr. Davis' car. They are installing new rings, grinding the valves and reboring the motor.

Raymond Track and Alpheus Bighorn are repeating the process on another car.

HOME ECONOMICS: The Senior Practice Cottage will soon be having open house for employees and students. The girls who are living in there now are Dorothy Hayward and Anne Plasteur, along with Cornelia Allman and Theresa Flander, two small Brewer hall girls.

The girls plan their own menus and make out their own order lists. They also keep a budget. The house is not completely furnished yet, but with the help of "Jo" Juneau, Mary Black, and Wilma Adams they hope to have it completed soon.

Most of the Senior girls have completed their knit skirts and are beginning on their knit blouses. The girls are planning on using the skirts for Baccalaureate.

The Sophomore girls are now planning white broadcloth suits.

The Freshmen girls have completed their bathrobes and pajama project and are now beginning with slips.

Mrs. Sanders' sewing classes have the curtains completed for McNary, Brewer and the Dining hall.

Junior Commercial Girls are making little dresses for the girls of Brewer Hall.

The Freshmen girls are sewing sheets for the Celebration and the summer School. Six hundred sheets have been sewed in the past two weeks.

The G2-6B class are completing cotton print dresses. Their next work is to design dresses to be made from cotton broadcloth with rayon print for contrast. They hope to complete and accomplish a great deal before the end of the term.

The G2 6A class is engaged in completing their fancy work for the coming sale.

The G3 class in productive sewing are making sheets for use during the celebration. They need many so all of the classes are quite busy.

Miss White's cooking classes are preparing foods suitable for luncheon menus. They intend to prepare a complete meal soon.

The girls in G2-6A class are going to start carpentry work of their own in the coming weeks. They are planning to make book ends, book shelves, radio tables and other articles. Mrs. Cronk is to be their teacher in this training.

Ruth I. Riss, former assistant to Dr. Johnson, was a visitor last week. Miss Riss is now Field Nurse at Pendleton.

Mr. Pat Guy and Mr. Kemp of the Spokane Forestry Office were recent visitors on the campus.

We regret to hear that Lydia Pepion, former student of Chemawa, died in her home at Browning, Montana of pneumonia.

Mr. Joe Crow of Linfield College accompanied by a friend were week-end visitors on the campus.

Miss Marcella Heitner of Portland was on the campus visiting her mother, Mrs. Hietner, over the week end.

Misses Naomi Mesplie, Onalee Normandin, Marguerite Andrews, former students of Chemawa, were visitors on the campus recently.

Mr. and Mrs. Quick and son, from Pennsylvania, proceeded on their journey in a trailer after spending several weeks visiting with their relatives, Mrs. Mohr and daughter.

We regret to hear that a former physician of Chemawa, Dr. Kerner, passed away March 5. Dr. Kerner, who retired last spring because of disability, had been residing in Portland until recently when he began journeying by trailer. He died from a heart attack in a trailer camp near Phoenix, Arizona.

Mr. Platt, Engineer from the Washington office; Mr. Asher Jackson, Engineer at the Haskell Institute of Kansas; and Mr. Evans of the Billings Construction Office arrived March 14 to inspect the heating system. They are making tentative plans for some courses to be offered at Summer school.
