

From the Vocational Departments

ELECTRIC SHOP: The electricians have been rewiring new apartments in Brewer and McBride Hall. The only old students who returned to the shop are Chester Paul and Sammy Danzuka.

PLUMBING SHOP: Buckets for the kitchen and Grade school building are being made by two of the plumbers.

Casters are being put on four of the kitchen tables by the N. Y. A. McNary hall showers have been overhauled and new pipes and valves have been installed.

BARBER SHOP: The Barber shop is opened five days a week during the morning and Mr. Thatcher is there all day Tuesdays and Thursdays.

Melvin Woundedeye is the only old student back of the six who work in the Barber shop.

MACHINE SHOP: The machine shop has recently finished making iron tools for the drawing room, playground equipment for playgrounds at Brewer and McBride Hall, and welding lugs on manhole covers to keep them from slipping out of place. Farm mechanic boys have finished their first six projects of blacksmithing. The morning division finished making window bars for the power-house.

COMMERCIAL: The two commercial classes, the Senior class and the Special class, are doing fine work. The Senior has learned to read and write shorthand very nicely. In typing, they have covered the keyboard of the typewriter. The advanced class students have the opportunity to practice their work in the office, and are getting good practical experience.

CARPENTRY: The carpenters have been very busy repairing and making furniture for the different campus buildings. A mailbox containing twenty compartments was made for the Main Office. A towel cupboard was made for the girls in the Gymnasium. Broom cupboards were made for the school buildings.

BAKERY: All the bakers are new in the bakery this year. Mr. Pepper, who is new at Chemawa, is progressing rapidly with his bakers. Last week they made 1,800 cookies, 100 raisin pies, 10 pans of applesauce cake, 600 cup cakes, and 844 loaves of bread.

CLOTHING: Miss Sadongie's Freshman classes have started their problems in clothing, and are working on undergarments.

LAUNDRY: The Laundry classes are getting good training in ironing, mangling, and in operating the washing machines, besides learning to fold linens, shirts, and other articles properly.

ARTS—CRAFT: The Freshmen and Sophomore girls, directed by Mrs. Pepper, are making a study of costume design, and have made drawings of the different types of dresses pertaining to the five art principles—balance, rhythm proportion, emphasis, and harmony. The Freshmen girls' have started oral reports and demonstrations on personal grooming. The Sophomore girls' have studied the "Art of the North West," and are now making original designs for scarfs and neckerchiefs to be applied in various ways. Two problems each class has are (1) the show case exhibit of "Art Principles of Interest to the public," and (2) the appearance of the bulletin board.

FOOD: The Senior Food girls are working on menus for luncheons with the price lists for each menu. They have been making reports from the health standpoint on "The Value of Foods."

The Sophomore girls are learning to cook luncheons, and have been preparing soups. Before starting the study of luncheons, they learned to do various kinds of canning, as all of the Food classes had done.

The Freshmen Foods girls are making a study of the value of fruits in the diet, and have been preparing and serving different kinds of fruit. They have also prepared and served complete breakfasts.

HOME MANAGEMENT: The Junior Home Management class studying problems in connection with housekeeping and food cost. The first two girls to live in the Junior practice cottage are Kathryn Jones and Cecelia Charley. They will move in on Monday, the 21st, and live in the practice cottage for two weeks.

KITCHEN: There are eight girls taking quantity cooking at the present time, and they work from 8:30 to 12:00 in the morning, and from 3:30 to 5:30 in the afternoon. There are special duties assigned to each girl, and they rotate these duties in order that the work is not too monotonous.

CHILD CARE AND HEALTH: In Mrs. Cronk's Child Care and Health class, the Sophomore girls have been studying health habits, and have chosen as their health problem, "Posture." As part
