

Homeroom Health Work

The Alaska Homeroom is studying about the food for cooking in the kitchen and bakery for their Health project. They are also studying resources of Alaska.

The Siletz Homeroom's health project is progressing very well. They are stressing the need for six trash cans for the campus, and are making posters to get students to use these cans when they are placed on the campus.

The Fort Belknap Homeroom is making maps, showing where the trash cans should be placed. They are also getting ideas for posters, for their health project.

The Umatilla Homeroom is studying about "Personal and Every day Health Habits" to better health conditions on the campus.

The Grand Ronde Homeroom is making posters on Fire Prevention, and these posters will be placed where they will do the most good.

The Warmsprings Homeroom is writing essays on the population, and stock-raising on their reservation.

The Blackfoot Homeroom is studying the fly situation around McNary hall, and the causes, slovenly habits, such as spitting.

The Yakimas are making posters to prevent accidents that occur on the campus. The dangers of the railroad crossings, and the dangers in the various shops, have been studied.

The Fort Peck Homeroom has studied the lighting system of the high school, where most of the lights were found deficient, except in the library and office.

The Tulalip No.2 have taken the boys' smoking room as their project. They have found the present smoking room too small, and suggested a larger one be built between McNary hall and the power house, which could be used as a recreation room, too.

The Taholah Homeroom has been observing the temperatures of rooms in the high school and grade school buildings, and have found most of the rooms over heated. They are also writing letters to find out about death rates on their reservation.

The Northern Idaho Homeroom has been studying the water on the campus, testing it, and have suggested covers for the trash cans at the kitchen, as a measure to insure good health for the students.

The Tulalip No. 1 has been sweeping the sidewalks on the south side of the high school and

have made posters. They are trying to get information about the health conditions on their reservation.

The Klamaths are taking a survey of campus hazards, and will make posters for the prevention of these hazards.

The California Homeroom has been studying on how to improve the general appearance of the students. They have made posters of how to dress properly for different occasions. They have also made maps of their reservations.
