

project of preparing and serving luncheons and supper dishes. They are studying of the different classes of food in relation to health.

The Senior girls are learning to prepare dinners. They are planning menus, and figuring the cost of these menus. These girls prepared and served a dinner for several guests last week.

Miss White's Home Economics girls are planning the football banquet to be given next week.

ARTS AND CRAFTS: The 9-C Arts and Crafts finished their scarfs which were made from stencil work. They have now started working on their designs for cross-stitching and other embroidery work. Several of the girls show much skill and good work on their scarfs and designs.

The 10-C class is making Christmas from blocks print, and have about four principle designs for the cards. Some of them have started on cross-stitch work.

Agricultural Program

(Continued from page 1)

ers, (two, three and four horse) scuttles, harrow teeth, etc. Sharpen knives, axes, hatchets, chisels, scythes, plow lays, hoes, etc.

All building and repairing work will done under the direction of this shop.

HORSES

UNDER DIRECTON OF FRANK LANE
AND CLAUD LOVEALL

Boys interested in horses will assist in the care, feeding and handling of the farm horses. This will include harnessing horses, care of harness, sanitation in and around barns, hauling of manure to land, and breaking of colts.

GENERAL FARMING

UNDER J. L. SHAWVER

Boys who wish to farm will take active part in preparing, planting, sowing, harvesting, storing and marketing of farm crops. They will have practice in usage and care of farm machinery, operating of farm machinery, and other general farm practices.

DAIRY

UNDER LAWRENCE THOMAS

Boys interested in dairy cows will build a dairy barn suitable for two cows, to begin with. They will build and keep in repair, pasture fences, grow grazing and feed crops. Specifically care for and milk their cows and market their milk. The boys will also be trained in milk sanitation, including pasteurization.

The boys plan on selling the produce from the dairy cows and poultry to employees of the school. Several employees have already volunteered to buy from the boys.

THERE WAS A TIME WHEN

Under this heading there will appear items from earlier editions of the CHEMAWA AMERICAN, and also from such other sources as they may be secured. What have you to offer to the readers of the paper. Send in your items to Charles E. Larsen

From the Classes

The Senior Home Relations class has been making plans for the cupboards and woodbox to be put into the new practice house being completed. They have recently selected the wall paper for some of the rooms, and some of the girls that are in the Home Woodcraft class have finished retouching furniture that is to be used in the practice house.

The Junior English class has been taking up the fundamentals of business and social letter-writing.

The Sophomore Physical Geography and Rural Economics class has been studying the history of Oregon.

The 12th grade Social Economics class has been studying about "Community Life" and have had current events from the Scholastic magazine.

The 8th grade has recently been making posters on health, which were quite well done, as well as attractive.
