

Antarctic Pictures Seen at Chemawa

Mr. Jack Ruttle who was mate on the North Star on the expedition to Little America in 1940, was a guest of Supt. and Mrs. Jackson on Feb. 1. During his stay he showed very interesting pictures of the expedition to the Chemawa people and their friends.

The highlights of the pictures were the activities in the Panama Canal when the North Star went through, and the huge snow cruiser as it was put on the ship and as it was removed on the snow in the Antarctic. The picture showed the different types of animal life, as the seal and the penguin, that were seen by the expedition. The all-color pictures and the explanation by Mr. Ruttle of the various experiences of the expedition were enjoyed very much by all who attended.

Organizations Enjoy Splash Party

The Hi-Y and the Y. W. gathered at the Salem Y.M.C.A. gym for their annual splash party on Saturday night, January 31.

Upon arrival it didn't take long for the boys and girls to don their bathing suits for a good splash where most of the evening was spent by those who wanted to swim. The others who did not care to swim played games in the gym. After the swim, refreshments were served. Weiners were roasted in the open fireplace and marshmallows were passed around and soon consumed. Because they were having such a good time, swimming, playing, and singing, the group hated to go when the time came to return to the campus.
