Editorial

We all feel we have a purpose to fulfill in our walks of life, that is success. In order that we may fulfill this, we have many problems to overcome. One is that we should try to understand each other and be helpful in our work and problems. We should not try to make goals by ourselves.

A football player cannot make a goal without the rest of the players to help him. It takes teamwork by everyone.

When a hero in our armed service is decorated for an honor, he has a feeling that he is accepting it for the whole outfit, and he makes them feel like they are accepting it too.

We should try to help each other. Life is not at all happiness and glory. There are some mean, unpleasant jobs, some with a bit of humor, and some without.

How can we help each other succeed? We can be most helpful by showing our classmates we are glad that they have achieved in a task. And another way is by showing no sign of jealousy by razzing them for what they have done—JULIA BERYS
