

Alaskans Give Concert

On Feb. 8 the Duncan Memorial church choir, from Metlakatla, Alaska, rendered a concert at the Chemawa auditorium. They traveled all along the Pacific coast of the United States.

Dr. Kohlsted is chairman of the choir. Reverend Frederick C. Schmidt, who has been pastor of this church for nine years, was accompanying the choir on their trip.

Mr. and Mrs. Ray V. Haldane

The choir is under the direction of Raymond V. Haldane, a Chemawa graduate and a former student of Willamette University. Mrs. Lillian Buchert is the organist. Many of the choir members are former students of Chemawa.

They opened the concert by singing the "Lord's Prayer;" and followed with these songs; "Holy Art Thou," "Sanctus," "Gloria," "Beautiful Savior" and the "Hallelujah Chorus". Mrs. Ray Haldane, the director's wife, and Mrs. Laura Adams sang a duet, "Come Savior Come." Miss Verna Evans, soprano soloist, sang "Ave Maria". Ray Haldane sang "The Lost Chord" and "Bells of the Sea" accompanied by his former music teacher, Mrs. Gertrude Tourney. This concert was dedicated to her.

A reception was given for the guests, employees and all the Alaskan students after the concert.

Returning after a very successful tour the choir stopped at Chemawa for a brief rest before continuing their homeward journey.

Juniors and Senior Confer on Plans

For the past few weeks the Juniors and Seniors have been having individual conferences with members of the guidance committee. These conferences are for the purpose of getting students to thinking and planning on what they wish to do after they leave Chemawa.

Many of the students have some good plans for the future, while some do not have any definite plans. The conferences helped these students to get started planning. The conferences were both pleasant and interesting.

Hospital News

Dr. Tirador, in his last sanitary inspection, reported he found McBride hall very neat and clean. He said the little girls were making their beds very nicely and putting the bedspreads on. He was really proud of the little girls and their matrons.

Dr. Tirador requests that the boys and girls stay on the sidewalks when coming to the hospital. This will help to keep the hospital clean.

Practice House

On our tour the reporters called on girls in the practice house. The Freshman practice house is the only one in operation at present but the Junior girls hope to be living in their house soon.

The Freshman practice house contains two rooms, a kitchen and combination living and bed room. It is neatly furnished. It resembles a rural home without modern conveniences.

Four girls live in the practice house at one time. They take care of the house, yard and chickens. To make rural life complete there should be a cow, but the girls say they hope there won't be as none of them know how to milk.

If Miss Goings, their instructor, considers the girls have done well in their duties, they are rewarded by being allowed to invite guests to dinner.

Reginald Tulee and Levi Wilson tried for the Pepsi Cola Scholarship award in a test given Feb. 14. We hope the results are gratifying to the boys.

The Seniors have been studying geometric figures in Math. They have made some very intricate designs using T-squares, compasses and protractors.
