## Job Opportunities Survey

Mr. Wright Noel, instructor in agriculture, and Mr. Edgar L. Wight, agriculture specialist, were in central Oregon in the Burns, Prineville, and Redmond region during the week December 4-10, in the interest of student placement. They visited large stock, hay, and small grains farms, inquiring into job opportunities. The results of the trip are that there is assurance that all boys who are interested in ranching and farming jobs, can be placed in that region upon graduation from Chemawa.

## Winona Hall Has Fire Drills

The girls of Winona Hall have fire drills quite often. In the last fire drill everybody got out of the building in less than two minutes.

At any time, when the bell rings and keeps on ringing, the girls realize that they have to shut their windows and doors and leave the dormitory in an orderly fashion. The girls in south hall downstairs leave from the side door; those in north hall downstairs leave by the back door; and the girls who live upstairs go out the front door. They line up with their councilors, who take roll and report to Miss Challis or Miss Tedlock. While the roll is being taken, the matrons check the building to see if all the doors and windows have been closed.

## Our Trip to Salem

All first year Navajo students had a trip to Salem. This is what we did.

We went to Kickback. They told us this is where you can get a bus to Salem. A round trip ticket costs thirty cents. Our next stop was at the Greyhound Bus Depot. They showed us how and where to get a ticket They showed us where you can check your baggage. We can ask questions at the bus depot.

We went to Roberts Brothers Store. Next we rode the escalator. We saw many clothes and Christmas things.
