

Welcome to Chemawa

During the school year the names of several people have been added to the roster of Chemawa employees. Some by now are quite well acquainted; others are newcomers. Chemawa students and employees welcome all who have come to work with them.

David Doerksen, a student at Willamette University in Salem, assists in the intramural activities of younger boys at Chemawa.

Mrs. Mary E. Bartolome is a matron at Winona Hall.

Mrs. James Johnston is teaching ninth grade.

Mrs. Buell Vaughn is a matron at McBride Hall.

Mr. and Mrs. Jacob Castillo are instructional aides in the Navajo program.

Campus Visitors

Friends of Chemawa

Chief Tsumtestas, Warm Springs, Oregon.

Mr. and Mrs. Daniel Snipe, Blackfoot, Idaho.

Ina Culpus, Warm Springs, Oregon.

Cynthia Moody, Warm Springs, Oregon.

Delphine Moody, Warm Springs, Oregon.

Elaine Jackson, Chiloquin, Oregon.

STUDENT BRIEFS

On Washington's Birthday in the afternoon, Florence Sorondo and I worked for Mrs. Schultz. When we were through she took us for a ride around Keizer. We stopped and visited Mr. and Mrs. Stanley Ashcutt. They invited us in to see their beautiful house. Before coming back to Chemawa we rode around in Manbrin Gardens and looked at the houses.

—Georgia Lucei

The eighth grade has been seeing slides, doing experiments, and drawing pictures in science class. We enjoy our science periods on Thursdays and Fridays.

For one of our experiments we invited Mr. Short, Mrs. Burke, Mrs. Johnston, Mrs. Hudson, and Mrs. Brannon. On that day we saw spores on mold, bread, moss, and ferns. We looked through a bioscope and a microscope.

—Isabelle Phillips

One of the outstanding dances on the program, new to many of us, was the shake dance of the Shoshone and Bannock Indians. The dance signifies the fear of evil spirits. It was danced by Willis Dixey, Lonnie Racehorse, and Herbert Pevo. —Eleanor Rabbie

On weekends you can get odd jobs on the campus if you look for them. There are all kinds, such as mowing lawns, working in gardens, pulling weeds, hauling rubbish, washing windows, and washing cars. All you have to do is go out and look for them. Once you get a small job and do it well, the person you worked for will want you back. This way you will earn spending money. On weekends when you have nothing to do but sit around, go out and look for a job; it's fun, once you get on to it.

—John Thorpe

We've been studying about soil erosion. We have learned about different ways that soil erosion is caused,—farmers not taking care of their soil, wind blowing it away, and water washing it away.

—Evelyn Brahman

It's good to be back at Chemawa after a nice weekend spent with my parents in Vancouver, Washington. We went to see a fish hatchery. It was interesting, but I especially enjoyed the beautiful scenery we saw.

—Lorraine Farmer
