

Student Briefs

Waste Not - Want Not

One of the things that students should give their attention, is the waste of food at meals. Every year hundreds of dollars worth of food is thrown away. I am sure we can cut down waste if everyone tries.

You never give it a second thought when you throw away food from your tray, but think of all the food that is wasted when 500 or more people each throw away a little. As garbage, it makes good hog feed, but it is very expensive hog feed.

You can eat all the food on your tray. Don't take something you do not want, or if you do not care for a full serving, ask the girl who is serving to just put a little on your tray.

On weekends many students eat candy or drink pop at the store before meals. They accept a full tray at meals, and then, because they aren't hungry, they throw away much of the food.

Timber!

The large maple, walnut, and fir trees on the campus are being checked. Many of them are being topped and trimmed. If this were not done they might break or become uprooted in a strong wind and fall on someone.

Several trees have been cut down and are missed, especially the large maple down by the store.

The seventh grade boys and girls go to the gym every day from twenty to three o'clock. The boys have half of the gym floor, the girls the other half. We play dodgeball basketball. We have lots of fun.

—Clifford Crowe

Mrs. Lena Cronk and Mrs. Rosetta Johnston went to Portland on February 23, to confer with Mr. George LaVatta in regard to student placement.

O. J. T.

Some of you might like to know where I have been for six and a half weeks, now. I have been on the job training for the past six and a half weeks, working for Mrs. Robert White out in South Salem.

I appreciated working for these people. They didn't want to let me come back to school. They also said that they wished I could remain as long as I would like to work for them.

Betty Goodman is to start working for the same lady that I have been working for. I expect she'll be working for this lady for six weeks too. She got there last Saturday morning and stayed over night with me. She wasn't supposed to go there till Sunday evening, but they wanted me to show her how to do things. So we've been doing everything last Saturday and Sunday. Sunday afternoon was our day off, so we went to town for just a brief time. I came back to Candalaria.

I think Betty will like her job when she gets used to the people and the things. I realize these people are very nice people. There are four children at this place; two six-year-old twins, a ten-year-old girl, and a fourteen-year-old boy. They are going to school in Salem.

When I first got there, Mrs. White wrote up a schedule for me to follow. Then she showed me how to do things, such as run the dishwasher, clothes dryer and washing machine. But I had to learn everything just in two weeks. After that everything became easier for me.

So you fourth year girls, just keep on going with your school, come again and finish your fifth year. You'll do the same things we are doing now. Just be happy because you still have another chance for learning more things from dear old Chemawa School.

We fifth year girls are just

about through with our school here. I hope some of the fifth year girls will attend another school next fall. But for myself, I imagine I'll be working somewhere,—I don't know yet where.

—Marie M. Brown

Seventh Graders Choose Interesting Topics

In the seventh grade, Friday is poem day and Thursday is topic day. There are twenty-eight pupils in the room and last Thursday we had twenty-eight interesting topics. Some of them were: The Basketball Tournament, Robert Luton; The Wright Brothers' First Airplane, Theodore Burland; The Danube River, Madeline Edmo; Poland, Levine Punkin; Raccoons, Maxine Punkin; The Blue Jay, Earl Aubrey; and Tarantulas, Robert LaBelle.

—Seventh Grade Group

Wasting Time

Wasting time may cause us to lose our job. By wasting time, I mean reading funny books and magazines, or listening to the radio when we should be working. Being to work late is wasting time. When we are on the job we get paid for our work. We should get a lot of work done.

Using our time well in school will help us to be on time to the job.

—Sally Jane Hood

I had a surprise waiting for me when I reached home February 20 to attend my sister's wedding. There was a bridesmaid's dress and headpiece for me to wear as her attendant.

—Ramona Tulee

Mr. Arnold Lyslo of the Portland area office, was a guest at the February 24 meeting of the guidance and placement group of the Chemawa staff.
