BOOING DOES NOT HELP WIN

At the last two basketball games there has been considerable booing from the crowd. This not only brings unfavorable attention to the persons booing, but reflects on the whole school, including the team. A game could be lost on account of it. If the referee wants to he can call a technical foul on the crowd for booing, and give the opposition free throws. A close game could easily be lost.

CHEMAWA LOYALTY

Students at Chemawa should be happy for being at such a well-respected school. The people in the country around us have known the school for quite some time. In order to keep the good name we must keep up standards in courtesy and good citizenship, and try to make improvement all the time.

Students should be happy that employees are teaching us how to act toward others, how to be self-responsible, and how to act upon serious matters in our lives.

Students should be happy to be learning various trades, and to be helped to have opportunities for jobs in which we are trained, after schooling.
