

Oregon State Fair

The Oregon State fair was held in Salem, Oregon. Some of the girls from Winona hall went to the fair. I was one of them.

This was the first time, in my whole life, that I had ever gone to a fair. I rode on the roller coaster and in the rocket. I did not feel too good after I had ridden in the rocket. I was kind of afraid at first. Now I am just waiting until my class goes to the fair so that I can see more things.

Katherine Jones

On September 3, some boys from Brewer hall went to the State Fair. I was one of them. Gosh! It was fun to be at a State Fair. I saw so many things that I had never seen before.

Lewis Wesley

We are going to the State Fair. We will go in the Chemawa School Bus. I can hardly wait to get to see the fair. It seems so long before we will be going to the fair and yet it is only a day and a half away. I can't stop thinking and wondering what I will see at the fair.

Grace One

At the State Fair I saw many people walking around. Many of them were drinking 7-Up, water, and other things.

I rode on a rocket, on the Devil's ride and others. I ate hot dogs, drank 7-Up and drank some Pepsi.

AN EXCITING DAY

I would like to tell you about the most exciting moment I ever had in my life.

I went picking beans. On this farm there were two tractors which were being driven by two boys. One of the tractors got stuck in a mud puddle. The boy who was driving it, could not get it out of the mud. The tractor was stuck in a narrow road. It had slid sideways so that there was no way for a car to pass it. The boy on the other tractor came over to help get the tractor out of the mud. We bean pickers were waiting patiently for the tractor to get out of the mud when suddenly the helping tractor pushed too hard and the stuck tractor started to slide and tip over. The boy, on the tractor, jumped off and ran as fast as he could. He had just taken a few steps when he fell. The boy was lucky that he did not get any cuts when he fell.

We all stood there shocked, thinking of what might have happened to that boy.

News from Health Center

Tom Lansing has been a patient in Salem General Hospital but he will return to the health center Saturday afternoon.

Mr. Robert Schuh, driver and maintenance man at the health center, was honored with an award of superior rating during the week of September 28. He received a nice cash award.

Henry Eddie Yazzie is a patient at the State Tuberculosis Hospital, Salem. He would appreciate receiving letters from his Chemawa friends.

Mrs. Melba Yoder, new practical nurse, came on duty at the health center October 1. She replaces Mrs. Geneva Zachow who transferred to Madigan Army Hospital at Tacoma.

HOW THE HOSPITAL HELPS

Here at Chemawa and at other places the hospitals help us a lot. Hospitals are very important to everyone. Here at school if we get sick we think to go to the hospital. When we get there the doctor and nurses give us medicine so that we will get well. Another thing that doctors and nurses do is to give us different kinds of shots so that we will not get sick. The shots help to protect us. Another time we go to the hospital is when we have an accident. They help us then, too.

All the people who work in hospitals keep us neat and clean while we are sick and they help us to get well.

Rachel Lillian

The doctor and nurses here at Chemawa give us physical examinations when we first come to school in the fall. They can tell if anything is wrong with us so we can be treated if there is. They keep us in good shape all year.

AN UNEXPECTED JOB

Last summer I wanted to work but I did not get a chance as there was no work. I went hunting and fishing and enjoyed my vacation. Then one day a plane landed in our village. There was a call for eighteen men for working. It was a fire fighting plane. I signed up for fire fighting and other men of the village went also. We worked twelve days fighting fires. That was my unexpected job.

MURDER IN THE CLASSROOM

Every morning the bee came to the class room to check on the boys and girls. When we were doing our school work he would always come around. Then the great day came for him, the day when he was too slow buzzing around our heads. He buzzed around Eugene's head and he slapped him down. That was a mighty blow and the poor bee fell to the floor, dead. I hope that he is now resting peacefully in Bee Heaven. We miss him in the classroom.

THE COW VOICE

One Saturday about fifteen girls and three boys from Chemawa went out to pick berries. That was the time I heard the cow voice. I had picked four crates of berries and had gone back to get my tickets for the berries. I had just come back to my row when I heard it. It was a loud cow voice. I screamed and ran. I thought the cow was right back of me. When I stopped and looked I saw there was a fence and the cow couldn't get out. Any way the loud cow voice really frightened me.

PEP CLUB

I am really enjoying being one of the Pep Club members. The Pep Club is trying to make a new yell for each sport we have during the year. We made a new yell for football games and now we are trying to make one for basketball games.

The Pep Club members are going to have new uniforms when basketball starts. We will have a chance to go to basketball games at other schools during the year. We only get to go to the first game or jamboree in football.

Nancy Yazzie

NEVER SATISFIED

Somehow we are never satisfied. Take the weather in Chemawa. When the days are hot I feel like going back to the place where it is nice and cold. When it starts raining in Chemawa the weather is cool but then the rain never knows when to stop and besides it makes some of the girls' hair straight.
