

Chemawa Appears on TV

The Rural Science Department made its debut on TV March 4th. The film depicting farm activities was narrated by Mr. Robert Farring, Instructor in Rural Science. The film showed the boys working with heavy equipment, repairing cars, and machinery, milking cows, cleaning dairy equipment, feeding pigs, fixing flats for seed planting, and other farm activities. A film of Hawley Hall, which houses our dining room and kitchen, was shown as a meal was being served. Preceding the showing of the films Mr. Farring and students Jane Griest and Curley Martin were interviewed. Jane displayed her beautiful Alaskan parka and Curley his twenty-year old Navajo saddle blanket.

GIRLS' RECREATION

Grace One, Reporting

An indoor soft ball tournament is in progress at the gym for the girls. At present Units 4 are ahead in both Winona and McBride.

The Cheer leaders and pep club have been living up to the trophy they won at the Jamboree. They cheer for the Braves at all home games and have traveled to Falls City and St. Paul with the team.

The rafters of the gym have nearly pulled loose this winter. The screams of the girls while playing games of volley ball tournament could be heard all over the campus. At the end of the tournament between all the girls of McBride and Winona the following girls were on the winning team: Martha Mishokoff, Irene Ramath, Clara Van Winkle, Lila Foxglove, Bertha Paul, Ruth Nez, Betty Jim, Lillian Johnson, Rena Davis and Betsy Seetook.

On New Year's Day a volleyball playoff was held. The teams had a tie each winning a game. On Washington's Birthday the same teams played again and ended in a tie. The following girls played: Captain Jane Lind, Marion Amos, Lilly Martin, Ida Largo, Rena Largo, Linda Brown, Martha Tall, Katie Maille, Evelyn Johnson, and Rose Sam. Captain Grace One, Ruth Nez, Bertha Paul, Martha Mishakoff, Sarah James, Seraphine Kameroff, Grace Hansen, Irene Ramath, Emma Beaver, and Clara Van Winkle.

HOW HIGH CAN YOU CLIMB

The all-school assembly sponsored by the Ag. Department offered a challenge to all students of Chemawa.

The assembly opened by asking three questions; From where did we come? Why are we here?, Where are we going? The first question was answered by a display of posters showing the Arctic north and the great deserts of the Southwest. Showing that each of these regions differ greatly from the Pacific Northwest. The second question was an opportunity to learn. This was shown by demonstrations of using the senses of sight, smell, feeling, taste and hearing. By developing our senses we can acquire skills that can be sold in the form of labor.

A demonstration of a chain showed how academic, vocational, group living, and recreation all form part of the learning process. The last question was answered with a display of a tree of events depicting various branches of preparation with the question of, "How high do you want to climb?"

Larry Larkin was the narrator.

Sinka Littlefish.

BOWLING

Some boys and girls went to Keizer to learn about bowling. When we got to the bowling alley the first thing that we did was to get bowling shoes. Then we were shown a slide film on, "How to Bowl." A man taught us how to hold the ball and how to throw it down the alley. He told us how many steps to take. He said that we should wear comfortable clothes when we bowl. At first the ball was kind of heavy but later it was light. I guess that your hand gets used to it.

It is really fun to bowl. The more that you learn about bowling the more fun it is to bowl. It is almost like playing basketball to see who gets the most points.

REPAIR! REPAIR! REPAIR

Ever since we had the October storm men have been busy repairing damaged buildings on our campus. First the men repaired the roof on Winona Hall, then McNary Hall roof and now are working on the roof of the auditorium. A big wind storm like the one we had does much damage.

FOLK SINGERS

Last Thursday, January 24 some boys from South Salem High School came here to Chemawa School and sang. Four of the boys played jazz. The other three boys sang folk songs. They really know how to sing. I surely enjoyed listening to them.

Thelia Sevouhok.

MASTER SERGEANT VISITS

On February 21st, Master Sergeant Rigez from the Army Recruiting Station came to Chemawa and met with the Junior High School students. He talked to us about the requirements for entering the army, and the opportunities that the army service can give us. His talk was interesting and he answered many questions at the end of his talk.

Diana Shorty.

FILMS IN THE CLASSROOM

Every Monday morning we look at a film in our classroom. We don't look at the films for fun. We look at them to learn. We learn many things from these films such as how to act on a job, how to keep a job. We learn about many different places and things. The films help us in our classroom work as we talk about the films in class, we study the new words that are used.

Bessie Jean Parish

TOPPING MAPLE TREES

One morning we heard a great big noise. We looked outside and there we saw men up in the maple tree. They were topping the trees. It was fun to watch the sawdust and branches fall. The men set up a big sign it said, "Danger Overhead." Now all the trees on the campus have been topped.

Annie Benally.

ENTERTAIN GUESTS

Last Wednesday we had a leaders' meeting at Winona Hall. We had as guests five girls from Willamette University. We discussed the things that had to be done during the week, and after the meeting we took the girls over to watch the pageant practice and then over to the gymnasium to visit the lettermen's party.

We went back to Winona Hall to have coffee. We talked with the girls. We questioned each other as to where we were from, and what we do on our campuses. That's how everybody meets friends.

Roseline Larkin.
