

SATURDAY JOB

I like to work on Saturdays because I earn money while working and at the same time I am learning new things. I have been using some new cleaning equipment.

Every Saturday I go to Salem on the Chemawa bus and then I take the Boone Road bus to get to my job.

From my employer's kitchen window I can see Salem. I can see the planes landing at McNary airport. The planes remind me of when I take off for Alaska.

Saturday I went shopping with my employer, Mrs. Winger. We went to the new shopping center which was built this winter. There were many people shopping. Children were getting candy and cookies free. I got a cup of free juice.

I watched the band playing and marching outside the Piggly Wiggly shopping center. They were all dressed in red and black. What a joyful scene I saw last Saturday!

OUR FIRST RELOCATION

We are sorry and happy to see the first student leave our classroom for a job on relocation. We are sorry to have Aloyisus Nukusuk leave and happy to know that he has a job.

Aloyisus is one of the boys from Vocational 11 class. He left for San Francisco, California on January 20, 1963.

There are many qualifications that you must meet if you want to go out on a job. First you must take and pass the G. A. T. B. test. You take that test in Salem, it shows your ability and the work that you are best qualified to do. You must take a classroom test. You have to pass a physical examination which is given at the Health Center. You must be in good health to go out on a job. Aloyisus took all these and passed so now he is on the job.

Good luck, Aloyisus, we want you to do good work. We know that some days you will be lonely and homesick but we hope that you will stick to your job. We know that you will try to do your best and become a good reliable worker.
