

STUDENTS TRAVEL

OUR TRIP

Our class took an educational trip to the Portland Museum and Portland Zoo. The most interesting thing that I saw was the aquarium. There were turtles, fish, snakes, and frogs in it. I had never seen an aquarium before. The following are additional student impressions:

Joey Chischilly

This huge walk-in heart was made out of chicken wire, plastic and concrete so that you can walk in it and hear the heart beating. The huge heart weighs two tons. Our heart pumps five quarts of blood through our body in about sixty seconds.

Robert Luther

An unusual thing that I saw was the electric eel. I never heard of or saw a living fish making electricity in his body. I didn't know that it was blind until I read the sign. Our guide told us that the electric eel produces from 450 to 600 volts of electricity.

Bennie B. Yazzie

The most interesting thing that I saw was the eagle's nest. The nest was inside the big glass. There were two eggs in the nest. There was a humming bird's nest beside the eagle's nest. The humming birds are very small.

TO THE COAST

Our class had a trip to the coast on April 10. It was a wonderful trip. We stopped at Boiler Bay and at Depoe Bay where we visited the Curio Shop. We saw a fishing boat leave. Next we had lunch at Fogarty Beach. After lunch we all played in the water and waded in the surf. Some of us got our clothes wet in the ocean.

We went on to Agate Beach where we looked for sea shells and pretty rocks. It really rained hard on the way home. We got back to Chemawa a little after five o'clock. It was a wonderful trip, everyone had lots of fun. No one will ever forget our trip to the coast.

FERNWOOD SCHOOL VISIT

Mrs. Louise LeVitin's class visited the Fernwood School in Portland, Oregon. The students spent the entire school day with the Fernwood students. Each Chemawa student had her or his hostess or host. The following are some of the com-

ments from Chemawa students:

After we went into the classroom with our host we did work with them. When they went to shop we went with them and watched as they worked on their projects. My host was making a penholder. We played volley ball in the gym for 30 minutes. I had dinner at my host's house. I enjoyed my visit.

Donald Hicks

Our trip to Portland was exciting. The lights in the night were sparkling like stars. In the afternoon the students have one-half hour of dancing. Some of the boys and girls are just crazy about dancing.

Ira Smith

When it was time for lunch we went to the gymnasium to eat lunch. They do not have a dining hall like we do. At 12:30 we went to Home Economics. School is out at 3:00 p.m. After school Karen and Debbie brought Joan and me to their home. We went to the Lloyd Center. We ate dinner at Karen and Debbie's home, then we watched television until we had to return to come back to Chemawa.

Lucy Johnson

It was a most interesting trip. After we visited Fernwood School, I went home with my host. His parents took us to the Lloyd Center, then we went to see a hotel. I was told many things about the hotel. When we returned to my host's home we had dinner and watched TV until it was time to return to Chemawa.

Steve Arizona

... I went to shop with my host. He was making a pen set. The teacher told each of our boys to make a pen set so we each made one. ... In the classroom I saw a film on Lewis and Clark and one on Natural Resources.

... The principal told the Fernwood boys and girls to take real good care of us and he said that he knew that we would enjoy everything. ... It certainly was a wonderful, beautiful trip. I certainly enjoyed it.

TRIP TO OSWEGO

Mrs. Duncan's room reports on their trip to Oswego. The following are student remarks:

My trip to Oswego was very interesting. At first I felt uneasy but after I got to know my new friend it was fun. I went to all her classes and then after school I went to her home. I met her grandmother. Grandma took us to see Lake Oswego. She told me that a long time ago a meteor fell there. The rocks are all black.

Olga Standifer

... My host took me to his class, then to the dining room where we had lunch. After lunch we went to the library and then to the speech class where the boys and girls had to make speeches. ... When we got to my host's home we went for a boat ride. At 6:30 we ate supper and then I had to return to the bus.

David H. Yazzie

... When school was out my friend and I went to his home. When we got

to his house we went out to play golf. I had never played golf before. Then we played basketball for awhile. He took me to his friend's house, where we saw a movie. ... After dinner we went to meet the Chemawa bus. I enjoyed my trip to Oswego and had lots of fun.

Moses Alexie

... The day we visited Oswego it was my eighteenth birthday. ... When my hostess and I got to her home her little brother, two years old, asked me if I was an Indian girl. I said, "I am a Navajo girl." He said, "If you are an Indian girl, how come you don't have a feather in your hair?" It really did sound funny. My hostess mother baked me a birthday cake and put eighteen candles on it. Gee! I was so surprised that I did not know what to do or say. They were such very nice people. ... They told me that I should try to blow the candles out.

Nellie Barbone

... When my friend and I went to his house we went down in the basement and there we saw a movie. Then we went outside and played baseball until it was time to eat. We went into the house and washed our hands before we ate. I never knew that I would have so much fun.

Paul Anderson

... When we got home I helped my friend with his chores and then we played basketball until it was time to eat our supper. ... The whole family took me back to our bus. ... That was the end of my facinating trip.

Lee

MT. ANGEL TRIP

One Sunday in April, some of the Catholic students took a trip to Mt. Angel. The Seminarians took us on a tour through the beautiful campus and the museum. The museum was very interesting. We looked at the many stuffed animals and an interesting coin collection.

We attended church services in the pretty church. We were served refreshments and then we returned to Chemawa. We enjoyed the trip very much and wish to thank the Seminarians for all they have done for us and thanks to all who made the trip possible.

RUSSIAN ORTHODOX STUDENTS ATTEND SERVICES

On April 2nd we Russian Orthodox students went to Portland, Oregon, to attend church services and receive holy communion. We had an opportunity to meet and visit with the Priest. I enjoyed the services as it reminded me of my home and parents.
