

BASKETBALL

HOME LIVING

Home Living includes many activities: Individual and group guidance, democratic practices, health, recreation, and home study. Involved in these activities are seasonal sports, both competitive and intramural, in all seasons, parties, shopping trips, week-end work off campus, pleasure trips, and just relaxing with friends to keep our boys busy and happy during their free-time out of the class room. Our well planned dormitory program, recreational activities, and athletic events help our boys feel that Chemawa is a home away from home.
