EDUCATION THE KEY TO THE FUTURE

The world is changing rapidly, so rapidly, in fact that students have a hard time keeping up with the many changes in science, mathematics, history, and other subjects. As the years go by, many people are losing their jobs because of automation or technical progress, and they do not qualify for new jobs because they do not have the training that is needed. Knowing about these changes and seeing the difficulties that others are having, should encourage us to get the best education that we are able to acquire. This means that a great deal of effort must be put forth by students. For our future we must be qualified, not only in earning a living, but also in becoming a well adjusted well informed citizen of the world of tomorrow.

Anderson James

OPEN LETTER

To: The Civic and Church Organizations of the Pacific Northwest
 Dear Friends,

The Christmas decorations are packed away for another year. The trees and wreaths are awaiting the Twelfth Night bon fire. Eagerly we start our way on the New Year, 1965. However, throughout that year we shall carry with us fond memories of the happy Christmas you gave us. Long after the gifts themselves are worn out, we will be warmed by the memory of your generosity and kindness, Christmas 1964.

To you the kind, public spirited people who took time to remember us at this season, we extend our thanks and best wishes for happiness in the New Year. Our regret is that we cannot thank each of you personally.

Cordially,

THE STUDENTS OF THE
 CHEMAWA INDIAN SCHOOL

GIRLS OF THE MONTH

Each month a Girl of the Month is chosen from each unit in each dormitory. The Girl of the Month is chosen for the following: progress, helping others, and citizenship. At the first Sunday assembly of the month the awards are given to the girls selected for the preceding month. Each girl is given an award and a letter of commendation signed by the staff. Girls who received awards last month were: Lorena Mills, Lucille Killbear, Lenora Oxeroek, Esther Hiratsuka, Arlene Willard, Betty Jean Begay, Nancy Yazzi, Lucy Hofseth, from Winona. The McBride girls receiving awards were: Alice Booth, Christine Alowa and Maxine Sky.

THANKS—SALEM LIONS

The Downtown Salem Lions Club sponsored their annual Christmas party for the students at Chemawa. Because of the large number of high school age students enrolled this year the party was in the form of a dance. The music was furnished by the famous Chevelles. It was grand music and everyone had a wonderful time.

Many thanks to the Lions.
 Alberta Capsul

OUR COFFEE PARTY

On November 25th, the 7B girls invited the 7B boys to the Home Economics room for a coffee party. The girls talked about table manners and what to do when you are invited to somebody's house. We hope the boys will remember to use their table manners when they go to other places to eat. These are some of the rules that we discussed:

1. Wash your hands before eating.
2. Do not go to the table with gum in your mouth.
3. Do not reach across the table for food; ask to have it passed.
4. Do not talk with your mouth full of food.
5. Chew your food with your mouth closed.
6. Remember to say please and thank you.

When we were finished the boys went back to their shops. The girls washed the dishes and cleaned up the room. We really had a good time and we hope that we will get to have another one before the end of school.

STUDENT ACHIEVEMENT

The first half of this school year is over. Student achievements have been evaluated and honors bestowed. Was your name among the honored? Did you receive a special trip, privilege, or other recognition as an award for good work? If you were not among those so honored, WHY NOT? It takes effort to achieve. The higher the achievement, the greater must your efforts be.

It is an honor and privilege to work with such honor students. However, we know that many more of you could be so honored by trying a little harder. How does one try more than what is now being done. Perhaps by honestly answering the following example questions, you can resolve this problem:

(1) How do I use my spare time—play or work?

(2) Do I keep on trying even though my work seems hard?

(3) Am I proud of my work or is it only the minimum effort required to get by?

(4) What are my attitudes toward classes, teachers, and fellow students?

(5) Do I fully understand the meaning of Education?

The ability to answer these questions is only a part of resolving your problem. The more complete solution involves **doing** something to correct the problem.

PHYSICAL EDUCATION

In P. E. many of us have been taking tumbling. We learned how to do backward and frontward roll, thigh stand, walk on our hands, etc.

It's lots of fun to do tumbling because it keeps you physically fit.
