CHEMAWA, OREGON, JANUARY, 1966

NUMBER 2

Juniors Present Beef Stew

A teacher who cracks down on the football hero just before the crucial game of the season, coupled with the frantic attempts of every one involved to salvage the day, make Beef Stew a real comedy hit with high school students.

The first attempt at class plays by Chemawa School in a goodly number of years is under the direction of Mrs. Mary Kay Randall, teacher. Much work needs to be done in the preparation of sets and lighting as well as the directing of the play, but conditions look favorable toward having a real smash hit on our hands.

Cast for the play includes: Victor E. Lekanof, Joyce Quijance, Maxim Buterin, George Kudrin, Thecla Wasuli, Stella Becenti, Wassie Wasillie, Gladys Wells, Abe Wilson, Mark Hiratsuka, Marlene Fred, Donna Morrison, and Susan Buterin. Pat Standifer

Holiday Buffet Enjoyed by All

A new approach to serving holiday meals has met with rousing enthusiasm from the student body. On Christmas Day the dining hall will be open from 12 noon until 4:00 P.M. During that time students may come in and eat as many times as they like.

The meals are served Buffet style, with the student helping themselves to liberal portions of whatever food strikes their fancy.

The Christmas menu includes; baked ham with raisin sauce, roast turkey with dressing, mashed potatoes and giblet gravy, candied sweet potatoes, buttered corn, tossed salad with dressing, hot rolls and butter, apple and cherry pie, milk or coffee, assorted fresh fruits, and cranberry sauce.

Students will eat at the tables by candlelight and soft Christmas music will be played.

This type of dinner is new with Chemawans. It was tried at Thanksgiving time and met with great enthusiasm. A generous thanks to Mr. Douglas for giving us something new and different.

ALL ABOARD

Effie Curley and Barbara Bekes chat with Helen Ramondas (back to camera) as Mrs. Matt and Mr. Divers check boarding lists.

Arthur Ahkinga, from Diomed, Alaska gets a front seat for a trip to California, others pictured Lorena Mills, Mrs. Matt, Maggie Pete, and Dorcas Rock.

STUDENTS ENJOY FIRST SNOW

On December 13, we got out of bed and looked out upon a cold frosty world. About noon it began to snow and everyone was happy. Some of the boys were running around outside to welcome the snow. Others who were afraid of getting cold just stood and looked out the window.

By evening it had stopped snowing and had started to melt. The next day the sun came out and it was all gone. Boy, that is the fastest winter I have ever seen.

Levi Lott

An introduction to the world of work, was the theme for one of the finest field trips that the students of Chemawa have ever experienced. Leaving Chemawa on October 16, and returning to campus on the evening of the 23. Fifty students, mostly seniors, spent an action packed, experience filled, week in San Jose, and Oakland, California.

Leaving Chemawa by charter bus we students and the chaperones journeyed to Redding, California for the first overnight stop. From there we traveled to San Jose, where we were the guests of the Employment Assistant Office of the Bureau of Indian Affairs.

While in the Bay Area we were given brief instructions of how to take care ourselves in a big city.

We stayed in hotels and daily cash was given to each student with which to buy their meals.

If a student spent all his money on one thing before the day is over, he went hungry for the rest of the day.

We were oriented on how to use the Employment Assistance Office and what to expect when we finish high school. We had the opportunity to visit some Junior Colleges and trade and vocational schools.

We also visited industries and assembly plants. There were many fine housing and recreational places. We even found a little time for recreation and the theatre.

In Oakland we did some more of the same, and toured the Alameda Air Base and the city of San Francisco. Boy! were we tired, but it was a wonderful experience and none of us will be as frightened of the big city when we finish high school. It was probably the greatest experience that most of us have had in our life thus far.
