School Spirit Has Varied Meanings

We at Chemawa are lucky to be offered such a wide variety of activities for our enjoyment. The majority of the student body is always eager to attend almost every program, ball game, movie, or assembly.

We should be proud of the fine spirit that is shown by most students at these programs. I have never been to a school where I have seen any finer attitude.

We speak of school spirit at the ball games, but it goes even further than that. It refers to the polite manner in which we listen to guest speakers, how we give attention to our manners in the dining hall, how well we dress and look when we leave the campus, and how we talk to strangers and to each other.

We have a wonderful heritage here at Chemawa, and we want to do our part to keep it just as perfect in the eyes of our teachers and our friends as it has always been.

When we go home this summer let's all plan to show the people at home what we are really like by continuing the same spirit that we show here.

Jim Lewis Jr.

The Metropolitan Testing

More knowledge was again drained from each and every student presently attending Chemawa on March 31, 1966. An all day test was the Thursday gift to the students.

This was another Metropolitan test which is given annually here at Chemawa. These tests require an answer sheet which was sent in by mail to be mechanically scored.

Though the test was long and a little confusing, some students claimed it being fun. This test was work, too, that we all know. Besides, what's a little work now and then?

Students Attend Summer School

Health Center Busy Place

Chemawa Health Center manages to keep busy whether students are sick or well. Between sick calls the staff is busy taking care of records, making plans for the future, and thinking up ways of improving the services.

The staff will prepare individual immunization records for all students that will not be returning to Chemawa. The students should let the staff know if they want their records.

The clinic plans for the X-ray unit from Oregon State Board of Health to be at Chemawa September 15 and 16, 1966, for small films and October 6 and 7 for large chest X-rays.

Always Drive Defensively

Defensive driving means that we would rather be alive and safe, than win an argument with another vehicle and be dead right.

Mr. Burright, our driver training instructor, emphasizes defensive driving as the only safe way to drive. This means that we have to do more than know the rules of the road. We have to watch out for the other driver and be prepared to act if a dangerous situation should arise, or if the other driver is careless or doesn't know the rules.

We have about 45 hours of classroom instruction where we learn the rules of driving and how to spot road hazards. After our classroom instruction, we take the written test. If we pass the written test we are ready for our lessons behind the wheel.

Always watch out for the other fellow is the first thing we learn when we start driving behind the wheel.

CHEMAWA LOVE SONG

Chemawa you dear old school we
 love,
 Your beautiful trees and green,
 green lawn
 The lovely, blue sky high above
 The stillness on the campus in the
 dawn
 Your beautiful flowers along the
 sidewalk
 The gentle breeze making the
 leaves sway
 Chemawa! about you, love to talk
 In our memories you will stay.
 The times that we have spent here,
 With friends and teachers and hard

Improvement of basic academic skills and an appreciation for honest labor are being taught to the 49 students who have been selected to remain at Chemawa for this year's summer program.

Half of the students attend classes in the morning, while the other half are engaged in work which will improve the campus, and services. In the afternoon the half that was working in the morning attends classes while the other half is employed on campus.

The curriculum of the summer program is designed to enrich the students' knowledge and improve their basic skills. Students are given instruction in the improvement of the basic tools of reading and arithmetic, as well as social studies knowledge which will make them better citizens.

Physical education is required of all students this summer and the emphasis is upon good wholesome outdoor recreation and body building exercise.

The summer session started on May 16, and will last for 10 weeks. Some of the students will have an opportunity to go home for a few days at the end of summer school before the resumption of regular classes next fall.

Units 1 and 2 Travel To Bachelor Lodge

Winona Hall units 1 and 2 spent a day at Bachelor Butte Lodge on Sunday, March 27. The group left campus at 7:30 a.m. and returned at 9:00 p.m. Originally the trip was planned for skyline, but unexpected instances took place so our plans were changed. But that didn't stop us. We went ahead and visited Bachelor Butte Lodge and watched the skiers.

We drove a few miles from the ski lodge so we could play in the snow.

Inner tubes from auto and truck tires were provided so we could slide down the huge hills. Alaskan and Navajo alike had a wonderful time in the snow.

After all the fun, we went to a park to eat our lunch. We roasted marshmallows and wieners and ate other delicious snacks. Then we headed back to Chemawa after a long journey and a fun-filled time.

Helen Ramondos

to fool matrons.
 Will in our memories remain so
 dear.
