

BOY AND GIRL AWARDS MADE

AWARD WINNERS- Ron Norrell, Sheila Aga, Eva Wilson, and Eugene Bourdofsky display their watches while Mr. Sorensen and Mr. Walters look on. Below- Valentina Lind and Carroll Levshakoff, the November winners, are presented their watches by Mr. Walters in Mr. Sorensen's office.

Students have been enjoying the many varieties of programs that have been presented under the National School Assemblies Programs.

The latest program entitled, Let There Be Light, was a program dealing with the science of electrostatics, and showed us many beautiful and wierd sensations.

WORD OF THE DAY

Something borrowed from another school is "The Word Of The Day Project," which was started this year after some of the faculty told us about how it was used at Haskell Institute.

One new word is introduced each day by the teacher in the first period class. Meanings, pronunciation, and usage are taught. Then the students are supposed to use the word in a sentence.

Later the English teacher tests to see if students are remembering their new vocabulary.

Many students are keeping notebooks in which they enter the new word each day.

It is fun to listen on campus to see if you can hear some of these.

Mathew Waskey

Athletes aren't the only ones that receive recognition at Chemawa. This year an award is being made each month for an outstanding boy and girl.

They are selected on the basis of having average or better grades and having shown exceptional qualities of friendliness, leadership, loyalty, honesty, and service.

The students selected must also have made a contribution to the total program of school and campus life.

A committee made up of one member from each homeroom in the junior and senior classes select five boys and five girls. This list is then sent to the principal's office where at least two of the names are eliminated. The remaining names are then put to a vote of the students who are juniors and seniors. They pick the girl and boy for the presentation of the award.

Each month the boy and girl that is chosen will receive a handsome wrist watch and a 8 by 10 picture of the student will be placed in a special display in the lower hall of Academic Building I.

Winners, thus far, have been; September- Sheila Aga and Eugene Bourdofsky, October- Eva Wilson and Ron Norrell, November- Valentina Lind and Carroll Levshakoff.

AUTO SHOP NOTES

Auto shop is fun, because we get to work on teachers cars sometimes. If we are working on a car, Mr. McNabb, our instructor, watches us and tells us how to do things the right way. He is the best mechanic I have ever known.

We do lots of different things in auto shop. We wash and wax cars, lubricate them, change oil, adjust brakes, change tires, and tune motors. We also have class room lessons where we learn how a car works and how it is put together.

Bring your car in and let us fix it we will do a good job.

GROOMING TIPS

by Anna Northway

Good grooming is a habit. Every person should practice it to keep themselves attractive, lively, and happy.

Here are some rules which will help you to get the most from living.

Keep healthy; eat regular meals every day. If you need to lose some weight, don't eat between meals and eat a little less at every meal. If you need to gain weight, Eat more than you have been eating at meals.

Bathe every day; more often when you have been sweating.

Keep your clothing in good repair and mend, press, wash, and iron them often. Be sure to wear clean undergarments each day.

Posture is another thing that should go along with grooming. Sit up straight and stand erect if you are walking or standing.

STUDENTS STUDY AT NIGHT

Students are making good use of the evening study hall. The library is open from 6:00 to 8:30 P.M. Monday through Thursday for those that need the extra time for study.

Mrs. Simonton, who is in charge, states that about 80 students make use of the library each evening.

Mike Mendenhall

Monday Morning Blues

Monday mornings are the laziest mornings of all for me. Still tired, I drag myself out of bed and go down the hall to the washroom. How I have to push myself to get to breakfast and my morning detail. Finally I get to class and then I make it through the week until next Monday morning.

Lucy Spein

Visitors from fourteen different foreign countries have visited our campus this year.

Homecoming Queen Fannie Tritt is a junior whose home is Arctic Village, near Fort Yukon, Alaska. She is the daughter of Mr. and Mrs. Abel Tritt of the same place. Fannie has three sisters and five brothers. One brother is also a students at Chemawa.
