WED. OCT. 30	DISTRICT AT SCIO
SAT. NOV. 2	STATE AT SALEM

Coach: Kugie Louis

JV'S HOLD THEIR OWN

In keeping with the Chemawa tradition of giving their all against the bigger and more powerful opposition, the Junior Varsity has represented the Braves well this year. Facing the same problem as the Varsity by being in a new league with larger schools. They dropped a hard fought campaign with Serra JV's (12-0). The following week they bounced back to handily down Woodburn's JV's (13-0).

What the JV's lack in experience they are making up for in courage and determination.

CHEMAWA 1 FOR 2 IN LEAGUE PLAY

With the Braves moving into the A-2 Capitol Conference, predictions were that they would have a very rough season. This has not proved the case. While they stand on a 1 for 2 record at the present time, the infants among giants have let every team know that they were around with their rugged determination and stamina.

In the season opener against league leader Serra, they showed

some brilliant defensive play and shook the opposition and crowd with some real thrillers on the long passing of Varrel Edenshaw and hard running of Glenn Cook. Percy Frisby has been able to move the ball over

the opponent's lines for those four and five yard gainers whenever he gets a little help from the offensive linemen.

While Serra was able to get to them in the second half to down them 31 to 0, it was any-

ones game at half time and a few lucky breaks could have made a different story.

In the Brave's tilt against Woodburn, the brilliant defensive play of Walter Meganack, Anthony Melovidov, and Glenn Cook, was enough to stop Woodburn cold and gave Frisby and Edenshaw a chance to put the offence into play, to down their opponents 19-6.

The Braves come up against powerful Cascade on October 4, and if they show the same desire that they have displayed thus far, the newcomers may stun a few clubs this year.

THE BUSIEST PLACE ON CAMPUS

STUDENTS TAKE X-RAYS

Last week everyone was going over to the clinic and taking their chest x-rays. I am not sure whether they want to find out if we have a contagious disease or if we are tough enough to strip in the cold rain and dress again without our teeth chattering. Actually it wasn't that bad at all, and we all feel real good to know that we are pure and healthy.
