

BRAVES TOUGH IN A-2 HOOP PLAY

Up In The Air

DINNER MEETING AT McNARY

A dinner meeting was held at McNary Golf Course January 7, 1969 at 6:00 p.m. Student Council members and Advisory Committee attended this dinner meeting.

After a big meal, we had our Student Council meeting and left McNary at approximately 10:00 p.m.

We enjoyed our big meal that we had but we were too full to move.

Madelyn Reft

During a recent game with Serra, Chemawa's Percy Frisby reaches high for a rebound, while Sam Leavitt and Tony Melovidov are ready to assist.

Although this is my first year here at Chemawa, I have learned that education is right at my fingertips and all I have to do is put forth the effort to reach out and grasp it.

Ruth Sheldon

Going into the second half of the 1968-69 basketball season, the Chemawa Braves are sporting an 8-6 season record, with 2 wins and 4 losses in A-2 League play.

According to Coach Kugie Louis, the team is really pulling together and the team spirit is running very high. This was demonstrated in a recent victory over Jefferson with an 88-61 win. Hubert Hopson led the Braves with 24 points, with every member of the team registering in the score column.

Thus far, in League play, Chemawa's opponents have scored 210 points and the Braves have tallied a total of 190 points.

Twelve hoopsters comprise Chemawa's Varsity Team this year. Richard Koso, Tony Melovidov, Calvin Fred, Lyle Walker and Alexie Moses are the Senior members of the squad. The Juniors include Leland Barger, Sam Leavitt, Hubert Hopson and Roy Nageak. Last, but not least, are the up and coming Sophomores, William Albert, Byron George and Percy Frisby.

BOTANY CLASS NEWS

In botany class we have some rats. We use these rats for genetic experiments. Last month December 6, 1968, we crossed a brown hooded male with a black hooded female. At the same time the gerbils were crossed. January 5, 1969, black hooded had eleven babies. She had six black hooded, three browns and two albinos. The gerbil rejected her babies and they almost died of starvation. Finally the black hooded rat adopted the gerbil. Now she nurses her babies and the gerbils.

Stella J. Hatathley

At Chemawa I have learned what to look for in life, and have been given the confidence to find it.
