

Art of Another Kind

Graphic Arts is a class full of adventure. No where else will you enjoy such achievement, and work with machines and an accurate pair of (your own) hands.

The class is hassle free because the teacher (Ron Berg) is an alright guy.

The Graphic Arts class has plenty of important printing jobs, such as printing this year's yearbook, also the printing of many documents. And, of course, some of your school work. Another of the class projects are printing this highly under-rated paper. Why not check it out some time. Just tell'em, The Prophet sent you.

By Isaac Jack

George takes a pit stop and lets Trog II (Ron Berg) repair loosened nail. (the only thing that holds the bike together.)

Sing-along Time

Did you know Chemawa has a school song? Well we do. We got together some information on the song and here it is....

Do

You

Know

the

Chemawa, We'll love thee forever,
Thy maples and walnuts so fair,--
The sunlight that falls on the fir trees,
Thy walks and thy flowers so rare;
And over the western mountains
Our banner is floating above--
And dear to our hearts will be ever,
Chemawa, the school that we love,--
(Chorus)

Oh, here's to our dear red and white
For you all our lives we will fight,
Our homage we bring,--
The welkin shall ring.
All hail to our dear red and white.

Thy sons and daughters so loyal,
Proud to own the dear name that we bear,
For the truth and the knowledge tho teachest
We are ready to fight and to dare;
For our friendship so valued we thank thee.
Our grateful tribute we bring--
All hail to our Alma Mater,
Chemawa, to thee we sing--

The Chemawa school song was originally adapted from the Oberlin College song. It was brought to Chemawa by a teacher named Harwood Hall. His wife and daughter had gone to Oberlin College in Ohio. When they came to Chemawa, they changed the Oberlin song to fit Chemawa.

Gertrude Turney revised more and made it popular here at Chemawa. Mrs. Turney was a music teacher
