To the Graduating Seniors of 75-76

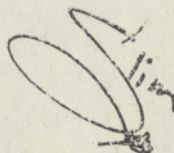

It's time to open yourself up to the big world. Show this world that an educated Indian is just as good as any other race. Get a higher education and climb the stairs. Don't take the easy way like an elevator. Take it slow and learn as much as you can. Cause this world is mean and rough and many of you will get hurt in many ways. Try to follow some advice that once helped me. I was told, "Don't let the bad things get the best of you. Be willing to fight against it and know that you will win."

All of you have something special that we will remember for a long time. We will always look up to you and say, "Yes, we went to school with them." As we see you leaving now, we think of what great things you have done. There will never be anybody like you guys in this big ball of confusion we call the world. Seniors of 1975-76, this is to you---

"We may never pass this way again."
